'IT'S NOT A HOME UNTIL IT'S PLANTED'

1944

ROSE HILL NURSERY

Nurserymen

Landscape Architects

BOX 495 MINNEAPOLIS OR ST. PAUL 8, MINN.

Established 1874

NURSERY OFFICE HOURS

The office is open from 8:00 A.M. to 5:30 P.M. To accommodate customers who cannot call at the nursery during the regular hours, a small force is on hand until 8 P. M. during April 10th to June 1st.

TWIN CITY DELIVERIES

Twin City orders amounting to \$2.50 or over are delivered free, otherwise a charge of 50c will be made to cover cost of delivery.

POSTAGE REQUIRED FOR ORDERS WANTED BY PARCEL POST

If shipment is desired by parcel post please include an amount to cover postage and packing. Please note average weights indicated at the headings of the various kinds of stock and compute the amount from the parcel post rates given on page 37.

PLEASE REMIT BY DRAFT, MONEY ORDER OR CHECK

On checks drawn on banks outside the Twin Cities, please add 10 cents collection charge.

SELECT YOUR OWN TREES

Our customers are welcome to select trees without extra charge in our 100 acre nursery. There is satisfaction in selecting your own trees where there are thousands of shade trees and evergreens to choose from. If you cannot do so, however, we will make careful selection for you.

Direct from the grower you are assured fresh, healthy plants that have not been weakened by exposure in stores or sales grounds.

BENEFITS OF ORDERING EARLY

If customers will kindly place their orders as early

as possible the best selection of stock and prompt delivery of the goods when planting time arrives will be assured them.

FREE PLANTING BOOKLETS

A booklet giving instructions for the planting and care of nursery stock accompanies each order. Purchasers of grass seed should ask for the booklet "How to make a lawn."

THE PLANTING SEASONS

Planting may be done in the spring, generally about April 1st to June 1st, or in the fall from September until the ground freezes solid.

PLANTING CHARGES

Customers are urged to do their own planting whenever possible and thus save planting costs. A booklet with plain planting instructions is furnished with each order. We offer a planting service, however, at the following rates for the Twin City area.

For planting trees, shrubs and perennials **60%** of the cost of the plants is charged for planting; for evergreens **40%** of the cost of the evergreens is charged.

20c per lineal foot is charged for planting hedges.

The minimum planting charge is **\$2.50**.

When it is necessary to supply good soil, rich planting soil is furnished and charged for as used.

Carting away of poor soil or debris is charged for at a very reasonable rate, depending upon the quantity.

EXPERIENCED GARDENERS

From June 1st to October 1st we have available experienced men for trimming hedges and shrubs and for general garden work.

Rose Hill Guarantee

We use every precaution in the growing and handling of our stock to supply only plants of highest quality full of life and vigor. However, the Rose Hill Nursery agrees to replace at one-half the original price, any nursery stock purchased direct from them at the prices listed in this catalog, that dies the first growing season. Prompt payment of accounts must be made in full and report made by October 10th of that season.

Visit Our Nursery

Here at Rose Hill Nursery you will find a hundred acres of the highest quality trees, shrubs, evergreens and hardy perennial flowers. These plants are grown for discriminating customers, who want the best of stock grown in the north to assure hardiness.

There are acres of evergreens you will enjoy seeing as well as shade trees, flowers and ornamental shrubs.

At tulip time, along the entrance drive, thousands of tulip blooms delight the eye and later peonies and other perennials are blooming in profusion.

Come and visit us—you are most welcome.

Entrance Drive To The Office At Tulip Time

HOW TO REACH THE ROSE HILL NURSERY

From MINNEAPOLIS, by auto, drive out East Hennepin Ave., directly to the Nursery, which is located two blocks east of the city limits.

From Minneapolis, by streetcar, take Como-Harriet car going towards St. Paul, get off at Eustis Street and walk three blocks north.

From ST. PAUL, by auto, drive north on Snelling Ave. past Fair Grounds one-quarter mile to Larpenteur Ave. (also known as County Road A), turn west (left) one and one-half miles to our office.

From St. Paul, by streetcar, take Como-Harriet streetcar going west, get off at Eustis Street and walk three blocks north.

High Quality Lawn Grass Seed

When purchasing grass seed, ask for the booklet, "HOW TO MAKE A LAWN." It tells how to make a lawn and how to take care of it.

The production of grass seed mixtures has, through intense study, become highly specialized. Rose Hill Nursery offers lawn seed which is composed of a mixture, in correct proportions, of the grasses that have proven most satisfactory for this section. Only the highest quality seed of the various kinds is used; for the difference in cost between the very best seed and cheap seed is so little, and the difference in results from their use is so great. In grass seed it is false economy to buy anything but the best seed.

Use 1 pound to 200 square feet of new lawn area to be seeded.

POSTAGE—Please include payment for postage if seed is desired by parcel post. See parcel post rates on page 37.

ROSE HILL LAWN SEED

The combination of seeds used in this mixture is the result of our many years of creating beautiful home grounds. Though the highest grade Kentucky Blue Grass forms the basis of this mixture, because Blue Grass makes the finest Minnesota lawns, other grasses are used to hasten the lawn and act as a nurse crop to the blue grass seed, which is slow to germinate. No better lawn seed can be bought at any price and we highly recommend it to you as a mixture which will produce a beautiful, thrifty lawn in the shortest possible time.

1 lb. \$0.60 3 lbs. \$1.65 5 lbs. \$2.50 10 lbs. \$4.50 20 lbs. \$8.50

ROSE HILL SHADY PLACE SEED

This mixture has been especially developed to produce a lawn in fairly dense shade. Under evergreens and low branched trees, where no sun ever strikes, no grass can possibly survive, but where the shade is not too dense this mixture will prove satisfactory.

1 lb. \$0.65 3 lbs. \$1.80 5 lbs. \$2.75

ROSE HILL WHITE CLOVER

White clover foliage gives an appearance of richness to the lawn and the flowers find favor with many persons. May be seeded into established lawns to encourage a more luxuriant-appearing growth.

Half lb. \$0.65 1 lb. \$1.15

RICH SOIL

We offer two grades of rich soil, delivered in such areas of the Twin Cities as restrictions will permit.

PLANTING SOIL: For use in planting—unexcelled for plants to grow in.

TOP DRESSING SOIL: To top dress the lawn. Is more finely pulverized than the planting soil, spreads easily. Call NEstor 7541, without charge from either city, for prices and delivery areas.

ROSE HILL FERTILIZER

Rose Hill Fertilizer is scientifically manufactured to be used in gardens, for feeding trees and on the lawn in the North Central states. It is odorless and pleasant to handle. Persons, who are wise in fertilizer buying, judge the value of the fertilizer by the chemical analysis, which law requires be printed on every package of fertilizer. Rose Hill Fertilizer ranks among the very best in plant food value. The guaranteed analysis is Nitrogen 6%, Available Phosphoric Acid 10% and water soluble Potash 4%. Lawns especially require Nitrogen for luxurious growth. Being highly concentrated a small quantity of Rose Hill Fertilizer covers a large area.

All vegetation is benefited by the intelligent application of a fertilizer because it supplies the soil with available plant food. Such application is followed by profit in the form of finer lawns, trees, shrubs, flowers and fruit.

Use 1 pound to each 35 square feet or 100 pounds to each 3,500 square feet. See diagram on page 18 for proper amounts and method of use for feeding trees. Complete directions for applying accompany each bag of fertilizer.

100 lb. bag \$3.75 50 lb. bag \$2.00
25 lb. bag 1.25 10 lb. bag60

Beautiful Grounds Express Refinement and Good Taste

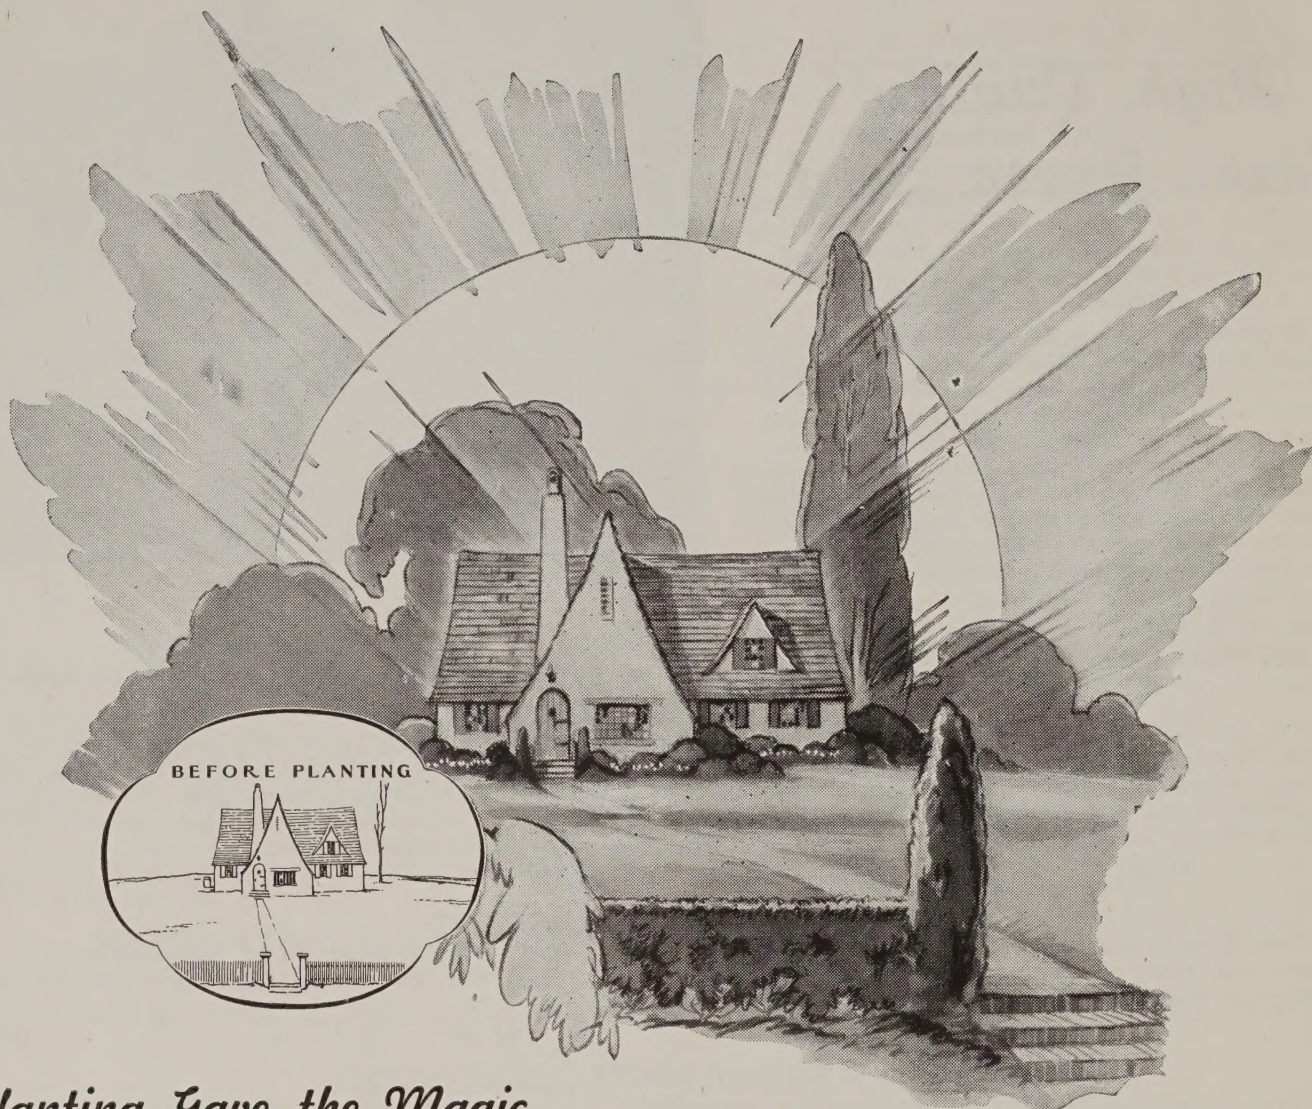

PULVERIZED PEAT

A splendid material to spade into soils to make them in better condition for plant growth. Peat causes a clay soil to become more friable and holds moisture in sandy soils. Used as a mulch about plants or as a top dressing for lawns it helps greatly to conserve moisture. Odorless and pleasant to handle. Call NEstor 7541 from either city for prices and delivery areas.

ROTTED MANURE

Thoroughly decomposed barnyard manure. Supplies plant food and improves the condition of the soil, making it better suited for root growth. Call NEstor 7541 from either city for prices and delivery areas.

*Planting Gave the Magic
Touch that Made this House a Home*

The Modern Way To Plant The Home Grounds

PLANTING SHOULD BLEND THE HOUSE WITH THE GROUNDS

Most houses appear bare and cold without the softening influence of planting about the house foundation. Use graceful flowering shrubs and other plants to take away the abrupt and harsh separation of house and grounds. The fragrance of flowers, the color and texture of foliage, the contrast of twig and berry are but part of the beauty you will enjoy from plants in the foundation planting.

It is in good taste to leave the front yard open to the public view and to make this portion of your grounds so attractive that it makes a pleasing impression on the passerby.

For the utmost in attractiveness in this area, plan to have an open stretch of well kept lawn framed on either side by plantings of evergreens and shrubs placed in pleasing arrangement. Plant trees for shade and to frame the view of your house.

The Best of All Gifts—A ROSE HILL GIFT CERTIFICATE

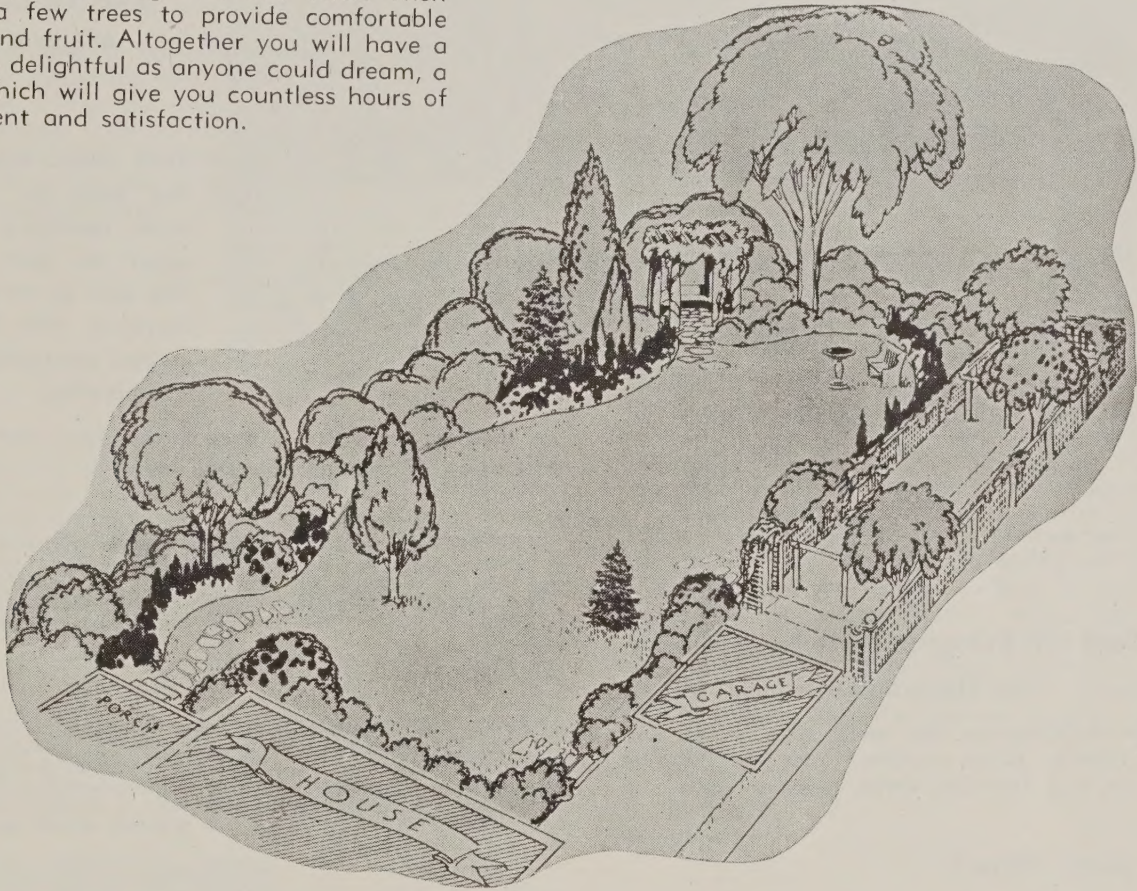

What more delightful gift for Mother's Day, Birthday, Christmas or other occasion could be given than a gift of a beautiful Colorado Blue Spruce, a Red Leaved Maple, lovely new French Lilacs, Ever-blooming Rose Bushes, Peonies or Phlox. Such a gift grows in beauty and value; each year the memory of the giver is cherished more and more as time goes on.

Give a ROSE HILL CERTIFICATE for any article you may choose or for a certain amount, the selection to be left to the one receiving the gift. The following pages in this catalog offer a wide variety to choose from.

Now...

Everyone Can Have an Outdoor Living Room

In place of an open rear yard within the view of everyone you should plan a private outdoor living room. Here you can enjoy the sunshine, and work among your shrubbery and gay flowers out of the sight of prying eyes. Let the turf provide a green carpet; plant beautiful trees, shrubs and evergreens to make the walls which set the room apart and screen it from view. Plant hardy perennial flowers along the borders to provide fragrance and color. Then locate a few trees to provide comfortable shade and fruit. Altogether you will have a room as delightful as anyone could dream, a room which will give you countless hours of enjoyment and satisfaction.

EARLY PLANNING SECURES THE MOST PROMPT SERVICE

We welcome the opportunity to plan for you at any time that meets with your convenience, but we can give the most prompt service before the rush brought by the warm days of spring. Snow on the ground is no hindrance to planning. February and March requests for planning help are especially welcome.

OUR LANDSCAPE SERVICE TO CUSTOMERS OF THE TWIN CITIES AND SUBURBS

Upon request, one of our landscape architects will call and consult with you if driving conditions permit. In many cases planting suggestions and costs can be given during the call. However, if necessary, a plan and estimate is prepared and presented to you for your consideration.

Or, you may bring a picture of your house or measurements of that part of your grounds you wish us to plan for and we will help you at the office. We suggest that you phone or write us for appointment to assure an architect being in when you come.

Besides doing the planning and furnishing the stock, our service is complete in that we do the planting, too, if you wish. See planting charges inside front cover. Phone NEstor 7541 from either Minneapolis or St. Paul.

HOW WE SERVE OUT-OF-TOWN CUSTOMERS BY MAIL OR PERSONAL CALL

We offer a helpful mail advisory service to out-of-town customers. Upon request we will mail a chart, illustrating what information is required to enable our architects to intelligently help you. When you send us the necessary information we will suggest how best to make your property most attractive.

In the developing of larger residence properties, grounds about public buildings, parks or cemeteries, a personal call by one of our landscape architects is often advantageous. Our architects are available for such calls and we will gladly give full information regarding the cost of their services upon request.

Competent foremen are available to out-of-town residents who desire our supervision in the carrying out of a landscape development.

ROSE HILL NURSERY

St. Paul 8, Minn.

Evergreens

PRICES INCLUDE BALLING
AND BURLAPPING OF
ALL EVERGREENS

THIS means that the tree is dug from the soil with the earth remaining undisturbed about the roots of the tree. The ball of earth is securely fastened with burlap. This method practically insures safe transplanting.

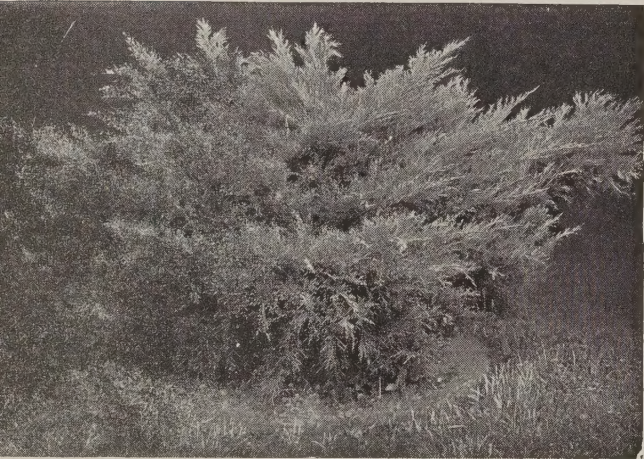

A PLANTING FOR THE FRONT OF THE HOUSE

Key	Variety	Key	Variety
1	Juniper, Silver Cedar	6	Juniper, Andorra
2	Pine, Mugho	7	LeMoines Syringa
3	Juniper, Savin	8	Alpine Currant
4	Arborvitae, Siberian	9	Cotoneaster
5	Arborvitae, Pyramidal		

Rose Hill Evergreens Are Famous
for Their Beauty

PLEASE NOTE—Excepting the small sizes which may be shipped by express, balled evergreens are best shipped by freight or truck line. Twin City orders delivered free.

Juniper, Pfitzer's

Juniper, Savin

In some varieties we have larger sizes than listed, upon which we will be glad to quote prices.

ARBORVITAE, American. (Thuya Occidentalis.) A native evergreen. Usually grows bushy at the bottom, tapering toward the top. Color a rich dark green. Very decorative singly or in groups. Will grow in partial shade. During very dry years this variety is often severely injured by drought.
3 to 4 ft.....\$5.00
4 to 5 ft..... 7.50

ARBORVITAE, Pyramidal. (Thuya Occidentalis Pyramidalis.) A popular evergreen, being of compact, shapely, pyramidal habit. The foliage is a most attractive, bright green. Fine for use at the house entrance or elsewhere about the foundation where a narrow growing evergreen is wanted. Delightful also in other situations about the grounds where an evergreen of this form is desired.
2½ to 3 ft.....\$ 4.50
3 to 4 ft..... 6.00
4 to 5 ft..... 9.00
5 to 6 ft..... 11.00
6 to 7 ft..... 14.00

ARBORVITAE, Siberian. (Thuya Occidentalis Wareana.) A compact, symmetrical grower of neat habit. Conical in form. The deep green foliage holds its color well during winter.
18 to 24 in.....\$4.00
24 to 30 in..... 6.00
30 to 36 in..... 7.50

JUNIPER, Andorra. (Juniperus Communis Depressa Plumosa.) A comparatively new variety of low, spreading habit. Plants seldom reach over fifteen inches in height, but will spread several feet wide. Its main distinction is the unusual pinkish lavender coloring of its foliage when frost comes in the fall. This attractive tinge is retained by the foliage until spring, when it changes to an attractive green.
24 to 30 in. spread.....\$5.00
30 to 36 in. spread..... 6.00

JUNIPER, Globe Red Cedar. A ball shaped form of the Red Cedar. Identical with the Red Cedar in all respects excepting as to shape of the tree, which in the common Red Cedar grows upright and slim whereas this form is round.
18 to 24 in. spread.....\$4.00
24 to 30 in. spread..... 5.00
30 to 36 in. spread..... 6.00

JUNIPER, Globe Silver Cedar. (Juniperus Scopolorum Globosa.) A compact globe form of Silver Cedar that is perfectly hardy. The silvery blue color is retained throughout the winter. The trees we offer are grafted which produce trees of a more attractive color and uniform shape. A good substitute for Globe Arborvitae.
15 to 18 in. diam.....\$3.50
18 to 24 in. diam..... 4.75
24 to 30 in. diam..... 6.00

JUNIPER, Pfitzer. (*Juniperus Pfitzeriana.*) A low, spreading tree with attractive green foliage. Will grow under almost any condition of soil or exposure. Stands considerable shade. Very desirable. See picture.

18 to 24 in. spread.....	\$4.00
24 to 30 in. spread.....	5.00
30 to 36 in. spread.....	6.00
3 to 4 ft. spread.....	8.00

JUNIPER, Red Cedar. (*Juniperus Virginiana.*) Of pyramidal form, densely branched. Bright green in early spring, gradually darkening during the summer. Pinkish tinge to foliage in late fall. Is very hardy thriving most everywhere and can be trimmed. Very useful in landscape plantings. Good for tall, narrow effects when kept trimmed or equally good untrimmed in a naturalistic effect.

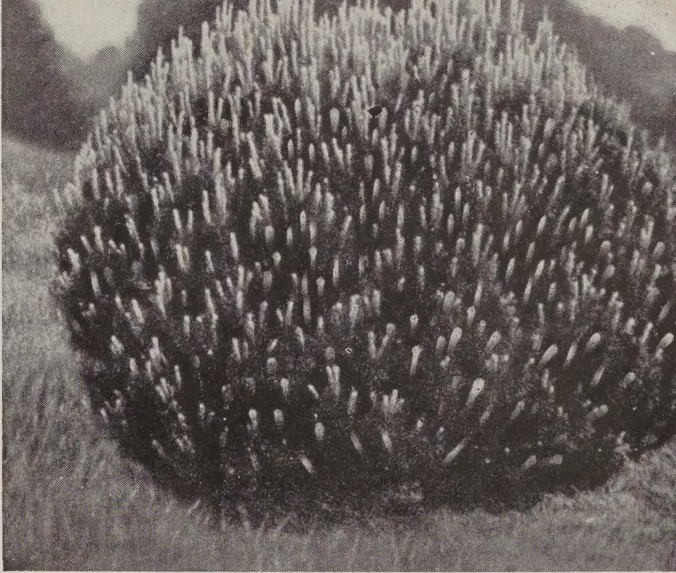

2 to 2½ ft.....	\$ 3.00
2½ to 3 ft.....	4.00
3 to 4 ft.....	5.50
4 to 5 ft.....	7.50
5 to 6 ft.....	10.00
6 to 7 ft.....	12.50
7 to 8 ft.....	15.00

JUNIPER, Savin. (*Juniperus Sabina.*) A low, many-branched type, usually not over two to three feet high. Its branches are spreading, dense, heavily clothed with dark green foliage. A hardy, desirable dwarf evergreen. A general favorite. Very desirable for planting in front of taller evergreens in a foundation setting or wherever a low evergreen is needed. See picture to left.

12 to 15 in. spread.....	\$3.00
15 to 18 in. spread.....	3.50
18 to 24 in. spread.....	4.00
24 to 30 in. spread.....	5.00
30 to 36 in. spread.....	6.00
3 to 4 ft. spread.....	8.00

**NOTE—ALL
EVERGREENS
OFFERED ARE
BALLED AND
BURLAPPED**

Mugho Pine

JUNIPER, Silver Cedar, (Grafted). (*Juniperus Scopulorum.*)

This grafted type is far superior to the ordinary Silver Cedar grown from seed because they are uniform in color and symmetrical in shape. This attractive evergreen is a bright silver blue in color which is most pronounced during hot, dry weather. It is a fine substitute for the Pyramidal Arborvitae where that tree does not thrive, being narrow, symmetrical and compact. It is not subject to breakage from heavy snows. The selected type we offer insures an even silvery blue color and uniform growth. This evergreen holds its blue color during the winter and is truly beautiful the year around. During extremely dry years when all varieties of Arborvitae as well as most other evergreens suffer serious losses, the Silver Cedar has stood both the dry and cold weather without injury. There is no better pyramidal shaped tree to plant for it is hardy, does not discolor in winter, is compact in growth and dependable. See picture bottom of page.

1½ to 2 ft.....	\$ 4.50
2 to 2½ ft.....	5.50
2½ to 3 ft.....	6.00
3 to 3½ ft.....	7.00
3½ to 4 ft.....	8.00
4 to 5 ft.....	10.00
5 to 6 ft.....	12.00
6 to 7 ft.....	14.00
7 to 8 ft.....	17.50

JUNIPER, Scopulorum. (From Seed, not grafted.) Juniper Scopulorum grown from seed and not grafted are not of uniform color and habit of growth and therefore are much inferior to the grafted type offered above. Because of this, we feel they are not satisfactory and do not offer them for sale.

Junipers and Mugho Pines at an entrance

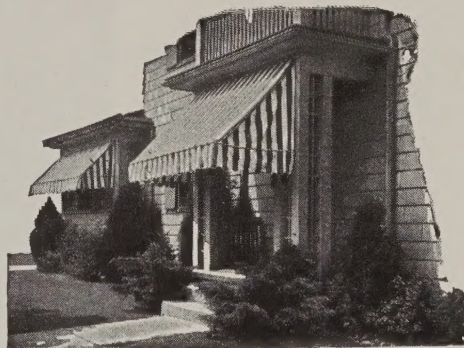

Juniper, Silver Cedar (Grafted)

Arborvitae Pyramidal

Black Hills Spruce

Evergreen Foundation Planting

Colorado Blue Spruce

PINE, Austrian. (Pinus Nigra.) One of the most beautiful of the taller growing pines. The tree is broader at the base, tapering toward the top and always presents a neat appearance. Its needles are a rich, deep green color four to five inches long. Perfectly hardy and a dependable grower. Fine to use in landscape plantings where a larger evergreen is wanted. See picture.

2 to 2½ ft.....	\$3.50	5 to 6 ft.....	\$12.00
2½ to 3 ft.....	4.50	6 to 7 ft.....	15.00
3 to 4 ft.....	6.00	7 to 8 ft.....	18.00
4 to 5 ft.....	8.00		

PINE, Montana. (Pinus Montana.) This tree, though quite similar, is a taller-growing type than the Mugho Pine. The darker foliage lends a splendid contrast with other trees. One of the very best evergreens for planting in foundation groups where a tree four to five feet tall is needed. Stands trimming well and can be kept at desired height.

12 to 15 in. spread.....	\$3.00	18 to 24 in. spread.....	\$4.50
15 to 18 in. spread.....	3.50	24 to 30 in. spread.....	6.00

PINE, Mugho. (Pinus Mughus.) Perfectly hardy, dwarf, bushy evergreen. Branches densely clothed with bright green foliage. Holds color well during winter. A very beautiful low evergreen. By shearing it can be kept as small as desired though this is seldom required. One of the best of all dwarf evergreens. See picture page 5.

12 to 15 in. spread.....	\$3.00	18 to 24 in. spread.....	\$4.50
15 to 18 in. spread.....	3.50	24 to 30 in. spread.....	6.00

PINE, Ponderosa. (Pinus Ponderosa.) The leaves are dark green with stout spreading branches. Branchlets reddish brown, fragrant when broken. Leaves five to eleven inches long. Cones in clusters. When planted alone or in a group this tree makes a beautiful specimen. It is perfectly hardy and a good tree for screen purposes.

2 to 2½ ft.....	\$3.50	3 to 4 ft.....	\$6.00
2½ to 3 ft.....	4.50	4 to 5 ft.....	8.00

PINE, Scotch. (Pinus Sylvestris.) A large, rapid-growing tree with spreading branches. Leaves bluish green, about three inches long. Cones reddish brown.

2½ to 3 ft.....	\$4.50	3 to 4 ft.....	\$5.50
-----------------	--------	----------------	--------

How to Plant Evergreens

- (1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

MINNEAPOLIS AND SAINT PAUL

SPRUCE, Black Hills. (*Picea Canadensis Albertiana*.) Foliage varies from green to bluish tint, and is at all times bright and fresh looking. The tree is symmetrical, compact and bushy, and one of the hardiest of all spruces. Planted as a lawn specimen or in the border it is eminently satisfactory.

24 to 30 in.....	\$4.00	5 to 6 ft.....	\$10.00
30 to 36 in.....	5.00	6 to 7 ft.....	15.00
3 to 4 ft.....	6.50	7 to 8 ft.....	17.50
4 to 5 ft.....	8.50	8 to 10 ft.....	25.00

SPRUCE, Colorado Blue. (*Picea Pungens Glauca*.) A beautiful tree, well known and admired by all. The blue color is brightest in early summer and gradually changes during the summer to a dull blue color. The tree is perfectly hardy and constitutes one of the most beautiful specimen evergreens available. See picture.

18 to 24 in.....	\$ 5.00	4½ to 5 ft.....	\$15.00
24 to 30 in.....	6.00	5 to 6 ft.....	18.00
30 to 36 in.....	7.50	6 to 7 ft.....	25.00
3 to 3½ ft.....	8.50	7 to 8 ft.....	35.00
3½ to 4 ft.....	10.00	8 to 10 ft.....	45.00
4 to 4½ ft.....	12.00		

SPRUCE, Colorado Green. Vigorous and hardy, resembling the Colorado Blue Spruce except the foliage is green.

18 to 24 in.....	\$ 4.00	4½ to 5 ft.....	\$12.50
24 to 30 in.....	4.75	5 to 6 ft.....	15.00
30 to 36 in.....	5.50	6 to 7 ft.....	20.00
3 to 3½ ft.....	6.50	7 to 8 ft.....	27.50
3½ to 4 ft.....	7.50	8 to 10 ft.....	32.50
4 to 4½ ft.....	10.00		

SPRUCE, Norway. (*Picea Canadensis*.) The needles are short, sharp-pointed and of a bright green color. It grows fast, thriving in extremely cold climates. Especially suitable for tall backgrounds and windbreaks.

3 to 4 ft.....	\$4.50	5 to 6 ft.....	\$ 7.50
4 to 5 ft.....	6.00	6 to 7 ft.....	10.00

HOW TO TRIM EVERGREENS

Evergreens can be trimmed and they should be in many cases. Late May or June is as good a time as any, though the pruning may be done at any time of the year.

Such varieties as the Cedars or Juniper, when planted near the house, should be sheared at least once a year to keep them narrow in form and also to keep the foliage dense.

How often one sees Mugho Pines grown straggly and unkempt because of the lack of a little judicious trimming. Normally each branch will make a shoot, or candle-like growth, of from three to six inches long. Just about the time this candle-like spike has started to put forth the new leaves, or needles, is a good time to trim. In Minnesota this will usually be in early June. Two-thirds or so of this spike should be cut off with a knife or pruning shears to keep the pine densely clothed with foliage and shapely. If this is not done, a loose habit of growth may result.

If necessary to prune severely, because of neglect, branches a foot or so in length may be cut out here and there to regain symmetry. These noticeable cuts will be covered by the new growth during the ensuing season.

The low growing Junipers, as Pfitzers and Savins, should be trimmed at the ends of the branches from time to time to prevent their growing too wide. This is especially necessary when they are planted in the foundation planting.

Spruce trees yield readily to pruning also. Generally, however, the spruce trees secured from a reliable nursery are well shaped to start with and little or no trimming is required. Should an occasional branch assume an awkward growth, no hesitancy should be felt about pruning it to shape the tree better. Cut close to one of the buds developing to produce foliage the next year, in order to hide the cut as soon as possible.

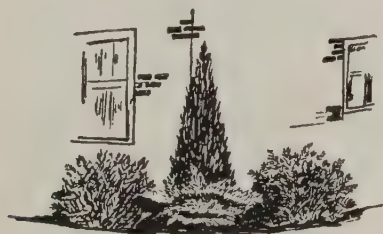

Austrian Pine

Evergreens add a tone of cheer to the landscape especially during the six months other trees have no foliage.

Red Cedar

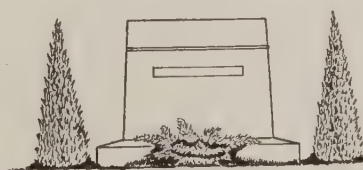

EVERGREEN PLANTING SUGGESTIONS

FOR CORNER OF HOUSE

Here either the Silver Cedar or the Red Cedar provides the needed height. With a Montana Pine at each side, and either a Pfitzer or a Savin Juniper between these two, the effect is harmonious.

A REFINED MONUMENT PLANTING

A Silver Cedar at each end of the monument with a Juniper Savin in front and in back presents a dignified and refined appearance.

Low Mugho Pines may be used instead of the Savin Junipers, if preferred.

Trees

FOR SHADE AND BEAUTY

At Small Expense You Can Plant a Tree That
Will Grow Into Priceless Value

NOTE—Shade and ornamental trees are usually too large for parcel post and can be shipped freight or express to better advantage.

ASH, White. (*Fraxinus Americana*.) A tall-growing native tree. Comparatively free from insect pests and a clean tree. It is very desirable for use as a lawn specimen or for the boulevard. It is long lived and the tough wooded branches are resistant to wind damage. Withstands drought conditions better than most trees. Grows to large size. See picture below.

5 to 6 ft. high.....	\$0.75	1½ in. diam.....	\$2.50
6 to 8 ft. high.....	1.00	2 in. diam.....	3.50
8 to 10 ft. high.....	1.50		

(For windbreak or woodlot see page 10)

American Elm

BASSWOOD or AMERICAN LINDEN. (*Tilia Americana*.) A fine native tree, very suitable for lawn or boulevard planting. The leaves are heart shaped and large. Fragrant, cream white flowers are borne in May and June. Has firm, gray bark. Vigorous growing and a good shade tree.

6 to 8 ft. high.....	\$1.50	2 in. diam.....	4.00
8 to 10 ft. high.....	2.50	2½ in. diam.....	5.00
1½ in. diam.....	3.50	3 in. diam.....	7.00
		3½ in. diam.....	9.00

BIRCH, Canoe, White or Paper. (*Betula Papyrifera*.) A desirable graceful tree with slender branches and silvery white bark. Leaves deep green and pointed oval shape. Especially effective when planted among or near evergreens. A medium sized tree.

4 to 5 ft. high.....	\$1.00	8 to 10 ft. high.....	\$3.00
5 to 6 ft. high.....	1.50	1½ in. diam.....	4.00
6 to 8 ft. high.....	2.00	2 in. diam.....	5.00
Clumps with 2 or more stems.			
4 to 5 ft.	\$2.50	6 to 8 ft.	\$4.00
5 to 6 ft.	3.00	7 to 8 ft.	5.00

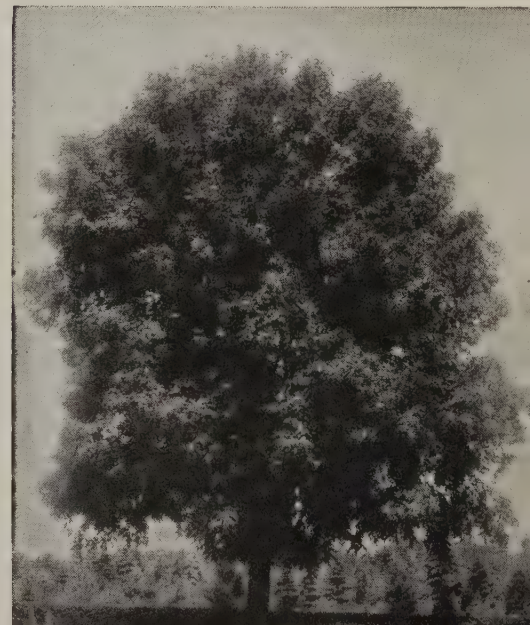

BIRCH, Cut Leaf Weeping. (*Betula Alba Laciniata Pendula*.) Silvery white bark, a graceful drooping habit of growth. Leaves very fine and deeply cut. An excellent ornamental tree. See picture bottom of page.

5 to 6 ft. high.....	\$3.00	8 to 10 ft. high.....	\$5.00
6 to 8 ft. high.....	4.00		
1¼ to 1½ in. diam. balled.....	\$ 7.00		
1½ to 1¾ in. diam. balled.....	8.50		
2 in. diam. balled.....	10.00		

Birch, Cut Leaf Weeping

White Ash

LARGE TREES FOR QUICK SHADE AND ORNAMENT

We have, in several varieties, large trees which require moving with a heavy ball of earth.

Prices, which include planting the trees in the Twin Cities, range from \$60.00 per tree and up. Your inspection of these trees is invited.

Chinese Elm

ELM, American. (Ulmus Americana.) This majestic tree is noted for its graceful beauty. It is perfectly hardy and of comparatively rapid growth. It is one of the most largely used trees for street planting and as a shade tree for lawns and parks. A very fine tree in every respect. See picture.

5 to 6 ft. high.....	\$0.75	2 in. diam.....	\$ 3.50
6 to 8 ft. high.....	1.25	2½ in. diam.....	4.50
8 to 10 ft. high.....	1.75	3 in. diam.....	7.00
1½ in. diam.....	2.50	3½ in. diam.....	10.00
		4 in. diam.....	15.00

(For windbreak or woodlot see page 10.)

ELM, Chinese. (Ulmus Parvifolia.) A fast-growing, graceful, small-leaved tree with a bushy head. This recent introduction is very hardy, thriving under dry conditions. It will thrive in sandy or poor soil where most other trees fail. For a windbreak on the prairie or where a dense screen is desired this tree has no equal. A very desirable tree for the lawn. The Chinese Elm will stand the smoke and gasses of downtown city locations better than other varieties. In the park across from the Post Office, in Minneapolis, Chinese Elms are growing thriftily. See picture.

(For windbreak or woodlot see page 10.)

CRAB, Flame. (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until mid-winter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250 or more brilliant red colored crabs. The fruit is attractive to winter birds.

4 to 5 ft. "	2.00		

CRAB, Hopa. The red new foliage and the beautiful single red blossoms which completely cover the tree in the early spring make this tree the most attractive of spring flowering ornamental trees. The fruit is small, red inside and out, remaining on the tree until autumn. The tree is hardy and blooms while very young. A more delightful small tree, for a restricted space, could not be found.

Bolleana Poplar

HACKBERRY. (Celtis Occidentalis.) This tree resembles the American Elm in foliage and twig characteristics. The bark is ridged in an interesting manner. The Hackberry is ideally suited to boulevard and yard planting for it is a beautiful tree and is comparatively free from insect pests and stands city conditions well. It will grow in exposed situations and on poorer soil than many other trees. The sweet berries provide bird food.

| 2 to 3 ft. high..... | \$0.60 | 4 to 5 ft. high..... | \$1.25 |
| 3 to 4 ft. "..... | .85 | | |
- MAPLE, Wier's Cut-Leaved. (Acer Dasycarpum Wierii.)** A weeping form of the maple. The branches are slender and drooping, presenting a most interesting, attractive and graceful appearance. The leaves are deeply cut.
- | | | | |
|-----------------------|--------|---------------------|--------|
| 6 to 8 ft. high..... | \$2.00 | 1 1/2 in. diam..... | \$5.00 |
| 8 to 10 ft. high..... | 3.00 | | |
- MOUNTAIN ASH, European. (Sorbus Aucuparia.)** A very decorative tree admirably suited to planting on home grounds and parks throughout the Northwest. Its clean branches and interesting foliage recommend it all summer long, while it is striking in appearance when the orange red berries cover it in August. These berries cling long into winter and furnish bird food. Creamy white clusters of flowers appear in May and June. The foliage turns an attractive reddish tinted yellow in the fall.
- | | | | |
|----------------------|--------|-----------------------|--------|
| 4 to 5 ft. high..... | \$1.00 | 8 to 10 ft. high..... | \$3.00 |

| 6 to 8 ft. "..... | 2.00 | 2 in. "..... | 5.00 |
- MOUNTAIN ASH, Oak-Leaved. (Sorbus Quercifolia.)** The upright branches of this tree form a pyramidal head. The leaves are shaped similar to those of the Oak. White flowers are followed by orange-crimson berries. A splendid variety for lawn plantings.
- | | | | |
|----------------------|--------|----------------------|--------|
| 4 to 5 ft. high..... | \$1.00 | 6 to 8 ft. high..... | \$2.00 |
| 5 to 6 ft. "..... | 1.50 | 8 to 10 ft. "..... | 3.00 |
- MULBERRY, Russian. (Morus Alba Tatarica.)** A low-growing, very bushy topped small tree. Leaves small and many-lobed. The edible fruit is sweet and resembles a blackberry. Attractive to the birds.
- | | | | |
|----------------------|--------|----------------------|--------|
| 5 to 6 ft. high..... | \$2.00 | 6 to 8 ft. high..... | \$3.00 |
|----------------------|--------|----------------------|--------|
- PLUM, Purple-Leaved. (Newport.)** Highly decorative small tree. See page 14.
- POPLAR BOLLEANA. (Populus Bolleana.)** Of erect columnar form. The attractive leaves are dark green on the upper surface and white beneath. The silvery gray bark is clean and healthy looking. Excellent to use where a tall narrow tree is needed next to a house. Fine too for use in a screen planting shutting off the alley or some other uninviting view.
- | | | | |

Decorative Shrubs

Fresh, Vigorous Plants—Sure to Grow

FLOWERING shrubs create natural beauty and loveliness and are indispensable to the landscape gardener.

Please note what an important part shrubs play in the landscape design to the right.

Against a house foundation the shrubs blend the house with the grounds and create a lovely softening effect. On both sides of the property and across the rear, shrubs contribute a delightful frame to the picture. They also give privacy and a beautiful background for annual and perennial flowers, besides their own beauty of flowers, berries and varying foliage colors.

Our large list of hardy varieties contains all the worth-while shrubs adapted to the rigorous climate of this section of the country. By thoughtful selection continuous interest may be obtained from early spring until late fall through successive blooming periods.

What delightful memories children will have of a yard like this

Heights of shrubs following the name denote size at which the plants present their maximum beauty.

ALMOND, Flowering. (*Amygdalus*.) 3 to 4 ft. Small, pink double flowers along stems in May. Needs winter protection. Though we have Flowering Almonds for sale, we suggest to our customers that the Double Flowering Plum be used instead. Flowering Almonds, except the Siberian Almond, are not strictly hardy in Minnesota while the double flowering plums are. They resemble one another closely.

2 to 3 ft. \$1.00 ea.
3 to 4 ft. 1.25 ea.

ALMOND, Siberian. (*Amygdalus Siberica*.) 2 to 3 ft. This new variety of Almond is of dwarf growth, perfectly hardy without winter protection. The bush is completely covered with bright rose pink fragrant flowers early in the spring, about two weeks before the common flowering almond. The leaves turn to gold and red in the fall creating a beautiful appearance at that time also. Very desirable.

12 to 18 in. \$0.40 ea.
18 to 24 in.75 ea.
2 to 3 ft. 1.00 ea.

Barberry, Japanese

BARBERRY, Thunberg's. (*Berberis Thunbergii*.) 2½ to 3 ft. A splendid dwarf shrub, conspicuous for its good foliage. The foliage is brilliantly colored in the fall and the attractive red berries cling well into the winter. A thrifty grower most anywhere. Good in front of taller-growing shrubs and as a hedge.

12 to 18 in. \$0.35 ea. 2 to 3 ft. \$0.75 ea.
18 to 24 in.50 ea.

(For Barberry hedge plants see page 21.)

BARBERRY, Red-Leaved. 2½ to 3 ft. Similar to the Thunberg's Barberry excepting in foliage which is a deep purplish red. A valuable shrub for color in the border.

12 to 18 in. \$0.60 ea. 2 to 3 ft. \$1.00 ea.
18 to 24 in.85 ea.

BUCKTHORN, Common. (*Rhamnus Catharticus*.) 6 to 7 ft. A very hardy shrub with dark green foliage. It will thrive in exposed locations where many other shrubs will not succeed. Valuable when planted as a shrub or when planted as a hedge. Stands shearing well.

2 to 3 ft. \$0.50 ea. 4 to 5 ft. \$1.00 ea.
3 to 4 ft.75 ea.

(For Buckthorn hedge plants see page 21.)

POSTAGE

If shipment is wanted by parcel post please add for postage and packing, figuring average weights for shrubs as follows: 12 to 18 in. shrub, 1 lb.; 18 to 24 in. shrub, 2 lbs.; 2 to 3 ft. shrub, 3 lbs.; 3 to 4 ft. shrub, 4 lbs. See parcel post rates on page 37.

ARALIA, Devil's Walking Stick. (*Aralia Spinosa*.) 7 to 8 ft. Attractive, tall-growing shrub with very prickly stems and large, deeply cut compound leaves 3 to 5 feet long. Tropical in appearance. Plant in protected locations. See cut page 12.
2 to 3 ft. \$1.00 ea. 3 to 4 ft. \$1.50 ea.

ARROWWOOD. (*Viburnum Dentatum*.) 6 to 8 ft. Flowers white, flat-topped, followed by blue berries in the fall. A large symmetrical growing shrub with bright green foliage coloring prettily in the fall. An elegant shrub to use in staggered shrub plantings, where height is wanted. The clean, attractive foliage is desirable as well as the flowers and berries. Birds like to eat the berries.

18 to 24 in. \$0.40 ea. 3 to 4 ft. \$0.85 ea.
2 to 3 ft.60 ea.

ROSE HILL NURSERY

BUCKTHORN, Glossy Leaved. (*Rhamnus Frangula*.) 6 to 7 ft. A handsome, tall shrub with shining dark green foliage. The yellow, inconspicuous flowers are produced all summer and are followed by red fruit, which changes to black. There are berries in all stages of development all summer. Birds are fond of these berries.
2 to 3 ft.....\$0.50 ea. 3 to 4 ft......75 ea.

BUTTERFLY BUSH. (*Buddleia*.) 3 to 4 ft. Also known as Summer Lilac, as the flowers resemble the common Lilac in general color and effect. It dies back with the frost in the fall and the dead wood should be cut back nearly to the ground; but the roots are usually uninjured and it quickly grows to a height of 3 to 5 feet or more in the spring. It blooms continually from July to frost, bearing long, slender, arching spikes of light blue, Lilac-like flowers, which are fragrant.
2 to 3 ft.....\$0.75 ea.

CARAGANA or SIBERIAN PEA TREE. (*Caragana Arborescens*.) 7 to 8 ft. One of our hardiest shrubs. Covered in May with bright yellow flowers, followed by long, slender pods. Will thrive in exposed trying locations, also in partial shade.
18 to 24 in.....\$0.50 ea.
2 to 3 ft......60 ea.
3 to 4 ft......85 ea.

CHERRY, PURPLE LEAF SAND or CISTENA. (*Prunus Pumila Purpurea*.) 4 to 5 ft. A fine, medium sized, upright growing shrub for color contrast in the garden. The purple foliage throughout the growing season is brightened by the red color of the new leaves at the ends of the branches. Small, single pink flowers.
18 to 24 in.....\$0.75 ea.
2 to 3 ft.....1.00 ea.
3 to 4 ft.....1.25 ea.

CHERRY, Sand. (*Prunus Pumila*.) 3 to 4 ft. The small, numerous white blossoms in May and purplish black fruit later make this shrub an attractive addition to the shrubbery border. The fruit furnishes food for birds.
18 to 24 in.....\$0.35 ea.
2 to 3 ft......60 ea.
3 to 4 ft......85 ea.

COTONEASTER or QUINCEBERRY. (*Cotoneaster Acutifolia*.) 5 to 6 ft. An attractive, dense-growing shrub having shiny, dark green leaves that color beautifully in the fall. Very good for planting in the border, at the foundation or as a hedge. It is extremely hardy and can be depended on to grow where many other shrubs fail, especially in partially shaded areas. The small, inconspicuous, pink flowers are followed by blue-black berries. When food is scarce, birds feed upon these fruits.
12 to 18 in.....\$0.35 ea.
18 to 24 in......50 ea.
2 to 3 ft......60 ea.
3 to 4 ft......85 ea.
4 to 5 ft.....1.00 ea.

(For Cotoneaster hedge plants see page 21.)

Hydrangea Peegee
Flowers white changing to pink

Hydrangea, Hills of Snow, with white
flowers Aralia in background

CRAB, Bechtel's Double Flowering. (*Malus loensis*.) A small tree with very lovely, double, fragrant, rose-like pink flowers in June. Splendid small tree for the lawn or when planted in the shrub border.
2 to 3 ft. high.....\$1.00
3 to 4 ft. ".....2.00
4 to 5 ft. ".....3.00

CRANBERRY, High Bush. (*Viburnum Opulus*.) 6 to 7 ft. A fairly large growing attractive shrub, decorative a large part of the year. The white flowers appear in flat clusters in early spring, followed by bright scarlet clusters of berries resembling cranberries that remain until late fall, long after the leaves have fallen. The leaves turn to bright autumn colors in September or early October. As the fruit is sour, the birds feed sparingly upon it.
18 to 24 in.....\$0.50 ea.
2 to 3 ft......75 ea.
3 to 4 ft.....1.00 ea.

CURRENT, Alpine or Mountain. (*Ribes Alpinum*.) 3 to 4 ft. A rather low, dense growing shrub that is very desirable because of its many uses in the landscape. Equally attractive when used in the border, at the foundation or in a hedge. One of the few shrubs that grows well in either a shaded or sunny location.
12 to 18 in.....\$0.35 ea.
18 to 24 in......60 ea.
2 to 3 ft......75 ea.
3 to 3 1/2 ft.....1.00 ea.
(For Alpine Currant hedging see page 21.)

DOGWOOD, Golden Barked. (*Cornus Aurea*.) 5 to 6 ft. Attractive in winter with its golden yellow bark, especially in masses with red-barked varieties. Clusters of small white flowers appear in spring. The white berries are eaten by birds.
2 to 3 ft.....\$0.50 ea.
3 to 4 ft......75 ea.
4 to 5 ft.....1.00 ea.

DOGWOOD, Red Twigged Siberian. (*Cornus Siberica*.) 5 to 6 ft. A superior variety of the Red Twigged Dogwoods. Its symmetrical growth and very bright red branches make it very desirable. It grows well in almost any soil and nearly as well in shady places as in sunny locations. The blossoms in spring are small white flowers in medium size clusters. Birds are fond of the white berries.
2 to 3 ft.....\$0.60 ea.
3 to 4 ft......85 ea.
4 to 5 ft.....1.00 ea.
5 to 6 ft.....1.50 ea.

DOGWOOD, Siberian Variegated Leaved. (*Cornus Siberica Variegata*.) 4 to 5 ft. The distinctly variegated green and white leaves make this plant very attractive. Its white flowers in spring and red bark are also interesting.
18 to 24 in.....\$0.60 ea.
2 to 3 ft.....1.00 ea.
3 to 4 ft.....1.25 ea.

Before and After Planting
From desolation, this little house was transformed to a home within a fairy garden by means of plants and flowers.

ELDER, Black-Berried. (*Sambucus Canadensis*.) 6 to 7 ft. A large rapid-growing shrub with flat clusters of white blossoms in spring followed by large clusters of black berries. Stands shade. Fruit used for wine or in pies and constitute an important bird food.

3 to 4 ft.	\$0.75 ea.
4 to 5 ft.	1.00 ea.

ELDER, Cut-Leaved. (*Sambucus Canadensis Laciniata*.) 6 to 7 ft. The beautiful fern-like foliage and strong growth in either sunny or partially shaded locations make this plant very desirable. White flowers in large flat clusters blooming in the spring. The black berries are food for birds.

2 to 3 ft.	\$0.60 ea.
3 to 4 ft.	.85 ea.

ELDER, Golden. (*Sambucus Aurea*.) 6 to 7 ft. The golden colored leaves contrast beautifully with the greens of other shrubs. Large flat heads of white flowers appear in spring. Leaves color best when planted in full sun. Bears black berries, attractive to birds.

2 to 3 ft.	\$0.60 ea.
3 to 4 ft.	.85 ea.

ELDER, Red-Berried. (*Sambucus Racemosa*.) 6 to 7 ft. A vigorous growing shrub that stands partial shade. A great profusion of white flowers in spring are followed by bunches of red berries attractive to the birds.

2 to 3 ft.	\$0.60 ea.
3 to 4 ft.	.85 ea.

EUONYMUS, Burning Bush. Wahoo. (*Euenymus Atropurpurea*.) 6 to 7 ft. A tall shrub covered in fall with bright red fruit which opens and displays the seeds enclosed in their scarlet aril. One of the most attractive fall shrubs. Flowers purple colored, stands shade.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.85 ea.
3 to 4 ft.	1.25 ea.
4 to 5 ft.	2.00 ea.
5 to 6 ft.	3.00 ea.

Tatarian Honeysuckle

EUONYMUS, Winged Burning Bush. (*Euonymus Alatus*.) 5 to 6 ft. The green leaves that turn to fiery crimson in the fall grow on branches with interesting triangular, corky wings. The small yellow flowers in May and June are followed by red fruit in autumn.

18 to 24 in.	\$1.25 ea.
2 to 3 ft.	1.50 ea.

FORSYTHIA, Golden Bell. (*Forsythia Suspensa Fortunii*.) 4 to 5 ft. The forsythias are among the very earliest shrubs to bloom, and before the snow is completely gone they give signs of awakening life. The arching branches are covered before the leaves appear with golden yellow, bell shaped flowers. Has clean, handsome foliage. Half hardy.

2 to 3 ft.	\$0.60 ea.
3 to 4 ft.	.85 ea.

HONEYSUCKLE, Morrow. (*Lonicera Morrowi*.) 5 to 6 ft. A thrifty grower with arching branches well suited for general yard use. Creamy white flowers produced in May followed by bright red berries.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.60 ea.
3 to 4 ft.	.85 ea.
4 to 5 ft.	1.25 ea.

HONEYSUCKLE, Tatarian. (*Lonicera Tatarica*.) 6 to 7 ft. Outstanding tall shrub particularly fine for screening unsightly views, for the background shrubby border or as tall specimens. Strong, shapely bush covered with an abundance of attractive flowers in May and June, followed by showy red berries, of which birds are very fond. Bright green, luxuriant foliage. Grows rapidly, hardy everywhere, does well in sun or shade. Offered in light red, pink or white flowers. See picture.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.60 ea.
3 to 4 ft.	.85 ea.
4 to 5 ft.	1.25 ea.

(For Honeysuckle hedging see page 21.)

HYDRANGEA, Peegee. (*Hydrangea Paniculata Grandiflora*.) 3 to 4 ft. Medium sized shrub with immense conical shaped white flowers which later change to pink. These are produced in August and September when few other shrubs are in bloom. Flowers may be cut before freezing for winter bouquets. See cut page 12.

18 to 24 in.	\$0.60 ea.
2 to 3 ft.	.85 ea.
3 to 4 ft.	1.25 ea.

HYDRANGEA, Hills of Snow. (*Hydrangea Arborescens Sterilis*.) 3 to 4 ft. A valuable shrub for foundation planting or in the border, with large snow-white blossoms. Commences to bloom in June and continues until early fall. Will grow in partial shade. See cut page 12.

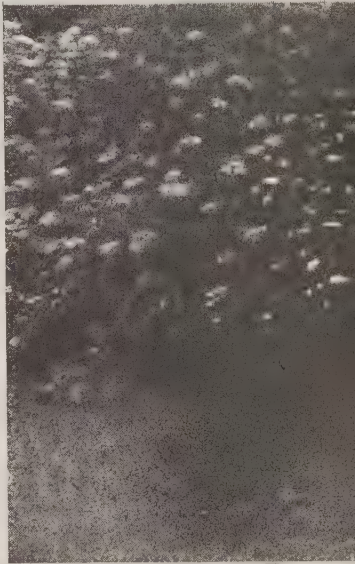

18 to 24 in.	\$0.60 ea.
2 to 3 ft.	.85 ea.
3 to 4 ft.	1.25 ea.

HYDRANGEA, Tree Form. 5 to 6 ft. This is a tree form of the Peegee Hydrangea, trained on a straight stem to produce a small tree for specimen planting.

3 to 4 ft.	\$2.00 ea.
4 to 5 ft.	3.00 ea.

JUNE BERRY. (*Amelanchier Canadensis*.) 5 to 6 ft. A beautiful May flowering shrub with every branch a mass of delicate, white bloom. The fruit that follows resembles blueberries in appearance and taste and is attractive to birds. A welcome addition to the shrub border.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.75 ea.

Elder, Cut-Leaved

ROSE HILL NURSERY

LILAC, Common Purple. (Syringa Vulgaris.) 7 to 8 ft. The old-fashioned Lilac. Fragrant purple flowers in May. Hardy, tall-growing. Favorites of old fashioned gardens and just as lovely today.

18 to 24 in.....	\$0.50 ea.	4 to 5 ft.....	\$1.25 ea.
2 to 3 ft.....	.60 ea.	5 to 6 ft. in clumps.....	3.50 ea.
3 to 4 ft.....	.85 ea.	6 to 7 ft. in clumps.....	5.00 ea.

(For Lilac Hedging see page 21.)

LILAC, Common White. (Syringa Vulgaris alba.) 7 to 8 ft. Similar in growth to the above. Flowers white.

18 to 24 in.....	\$0.50 ea.	4 to 5 ft.....	\$1.25 ea.
2 to 3 ft.....	.60 ea.	5 to 6 ft. in clumps.....	3.50 ea.
3 to 4 ft.....	.85 ea.	6 to 7 ft. in clumps.....	5.00 ea.

LILAC, Japonica. (Tree Lilac.) A vigorous growing lilac of tree form. Creamy white flowers are produced in June after other lilacs are through blooming.

2 to 3 ft.....	\$1.00	3 to 4 ft.....	\$1.25
----------------	--------	----------------	--------

LILAC, Persian. (Syringa Persica.) 6 to 7 ft. A graceful Lilac. The branches are slender, leaves small size. The flowers are pale purple, fragrant and borne in large panicles.

18 to 24 in.....	\$0.50 ea.	3 to 4 ft.....	\$1.00 ea.
2 to 3 ft.....	.75 ea.	4 to 5 ft.....	1.50 ea.

LILAC, Rouen. (Syringa Rothomagensis.) 6 to 7 ft. An improvement in both color of flower and manner of growth on the common Persian Lilac. Flowers are larger and reddish purple in color, produced in profusion. A very graceful shrub. No home landscape is complete without this lilac.

18 to 24 in.....	\$0.50 ea.	3 to 4 ft.....	\$1.00 ea.
2 to 3 ft.....	.75 ea.	4 to 5 ft.....	1.50 ea.

LILAC, Villosa. (Syringa Villosa.) A desirable bushy shrub about eight feet high with stout branches. It has dark shining foliage which is very attractive. Flowers are silvery rose and produced after other Lilacs are through blooming, thus extending the Lilac blooming period.

18 to 24 in.....	\$0.50 ea.	3 to 4 ft.....	\$1.00 ea.
2 to 3 ft.....	.75 ea.	4 to 5 ft.....	1.50 ea.

Lilac

FRENCH HYBRID VARIETIES

THESE splendid Lilacs are far superior to the common varieties, blooming much more consistently, with a greater profusion of larger flowers. The plants seldom send out sprouts around the plants as the old purple and white kinds do. They generally bloom the first year after planting. Available in a wide choice of flower colors, they constitute a most valuable group of shrubs. The following varieties are among the most hardy and very best Lilacs of this class.

18 to 24 in.....	\$1.00 ea.	3 to 4 ft.....	\$2.00 ea.
2 to 3 ft.....	1.50 ea.		

ALFONSE LAVALLE. The lovely, double flowers of this variety are a delightful, clear lilac color. The flowers are large and the bush a general favorite.

CHAS. JOLY. A choice double dark red Lilac. The bush is an upright grower of medium size, producing freely, large clusters of gorgeous flowers.

CHAS. X. The deep reddish purple flowers of this Lilac are magnificent. The flowers are single and borne in large flower masses very profusely.

LUDWIG SPAETH. Single flowers. The red color a brilliant intense rich purple-red that holds up well in the sun and lasts a long time. Flower panicles are long and held erect well out from the foliage. It is a profuse bloomer, commencing to bloom when only two feet high. A most wonderful Lilac, and we take pleasure in recommending it.

MADAME LEMOINE. A fine, white Lilac which contrasts beautifully with colored Lilacs. Madame LeMoine is one of the very best double white flowering bushes. Blooms in abundance on a fine, strong plant.

MARIE LE GRAYE. The large, single white flowers are borne in great profusion even when the plants are very small. It is generally acknowledged to be the best single white variety.

PRESIDENT GREVY. The violet colored blossoms are immense in size and very double. This bush is the most vigorous of the French sorts.

PRINCESS ALEXANDRA. The single white clusters are large and compact. The brush is a rapid, erect grower. A most choice white variety.

The French Lilac, Ludwig Spaeth
Rich purple red in color

MAPLE, Tatarian. (Acer Tataricum Ginnala.) 8 to 9 ft. A graceful shrub-like tree with handsome foliage which turns red in autumn. The brilliance of this coloring is unsurpassed. This shrub should be in all massed shrubbery plantings.

18 to 24 in. high...	\$0.35	3 to 4 ft. high.....	\$0.85
2 to 3 ft. ".....	.60	4 to 5 ft. ".....	1.25

NINEBARK, Dwarf. (Physocarpus Opulifolius Nana.) 3 to 4 ft. One of the newer, dwarf, graceful shrubs. Nicely adapted to being planted close to the house or in the forepart of the shrub border. Has elegant small leaves, which color delightfully in the autumn. White flowers are borne in spring, followed by numerous attractive red pods.

18 to 24 in.....	\$0.60 ea.	3 to 4 ft.....	\$1.00 ea.
2 to 3 ft.....	.85 ea.		

NINEBARK, Golden Leaved. (Physocarpus Aureus.) 7 to 8 ft. The golden green colored leaves are most attractive when used with other shrubs. White flowers in clusters about the middle of June. Large growing.

3 to 4 ft.....	\$0.85 ea.	5 to 6 ft.....	\$1.50 ea.
4 to 5 ft.....	1.25 ea.		

NINEBARK, Tall. (Physocarpus Opulifolius.) 7 to 8 ft. Vigorous growing. Large white flowers in June followed by seed pods turning bright red in summer. Makes a good screen.

2 to 3 ft.....	\$0.60 ea.	4 to 5 ft.....	\$1.25 ea.
3 to 4 ft.....	.85 ea.	5 to 6 ft.....	1.50 ea.

OLIVE, Russian. (Elaeagnus Angustifolia.) 10 to 12 ft. A large-growing shrub with silvery white foliage. One of the best for planting in dry, exposed locations.

2 to 3 ft.....	\$0.60 ea.	3 to 4 ft.....	\$0.85 ea.
----------------	------------	----------------	------------

PLUM, Double Flowering. (Prunus Triloba.) 5 to 6 ft. A very choice early spring blooming shrub of medium height, bearing, just before the leaves unfold, a profusion of delicate double pink colored rose-like flowers. Flowers resemble the flowering almond but the bush is harder and more satisfactory. Many mistake this bush for the flowering almond. See cut.

18 to 24 in.....	\$0.60 ea.	3 to 4 ft.....	\$1.25 ea.
2 to 3 ft.....	.85 ea.	4 to 5 ft.....	1.75 ea.

PLUM, Purple-Leaved. (Newport.) 6 to 7 ft. Large-growing shrub or small tree with shining purple leaves which hold their color well during the summer, contrasting beautifully with the green tones of various other shrubs.

3 to 4 ft.....	\$1.25 ea.	4 to 5 ft.....	\$1.75 ea.

Rugosa Roses

Hardy Without Winter Protection

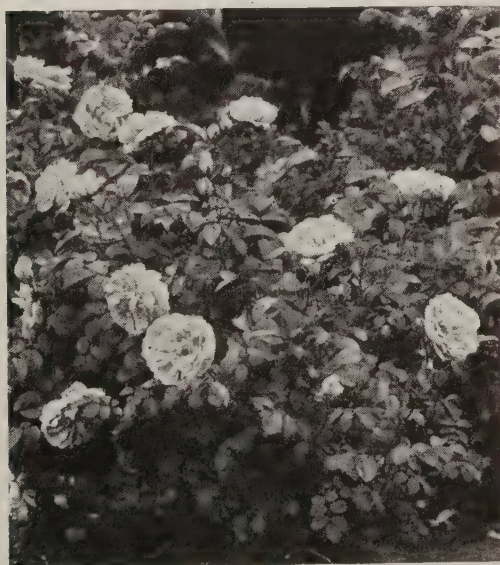

THESE are especially valuable for growing in Minnesota on account of their hardiness. THEY NEED NO WINTER PROTECTION. Rugosa Roses are erect growing, with spiny stems and have tough crinkled foliage of a healthy green. They bloom throughout the summer and fall. Particularly useful for planting in shrubbery, in foundation planting, for hedges, along driveways, borders of properties and the like where the fragrant double flowers will be enjoyed by all. We recommend trimming them to one half their height each spring, thereby producing a larger number of new branches for more flowers and foliage.

PRICES ON THE FOLLOWING HYBRID RUGOSA ROSES

18 to 24 in.....	\$1.00 ea.
2 to 3 ft.....	1.25 ea.

AGNES. The coppery yellow buds become amber gold upon opening. Produced freely, the blossoms are well shaped and sweetly fragrant. The only Rugosa which is truly yellow.

AMELIA GRAVEREAUX. The delightful flowers resemble the Tea Roses in their form and fragrance. They are double and rich, dark red in color. Blooms over a long period. Forms a nice vigorous bush.

Hansa Rugosa Rose
Rich deep red flowers

The modern style in planting is to use plant materials to the fullest extent possible that they bring to your grounds the color, the beauty and the charm for which the modern place is noted.

BELLE POITEVINE. Clusters of large semi-double blooms of soft pink. The plants produce an abundance of flowers and bloom continuously all summer. A vigorous grower.

CONRAD FERDINAND MEYER. An early flowering variety combining the ornamental quality of its Rugosa foliage with the blossom beauty and perfume of the Hybrid Perpetuals. Flowers large, cup-shaped and double; a delicate silvery-pink.

F. J. GROOTENDORST. The flowers are small, fringed, bright red. Produced freely throughout the growing season in large clusters. A strong-growing plant with strong, healthy foliage of splendid quality.

HANSA. This is the rose that attracts so much attention every summer. The best double red Rugosa Rose. The plant is a strong healthy grower with fine dark, rich green foliage. The flowers are of large size and are most attractive with their rich, deep red coloring, perfectly double and fragrant. See picture below.

(For Hansa Rose hedging see page 21.)

SIR THOMAS LIPTON. An excellent pure white Rugosa Rose. Strong and vigorous, grows four feet high. Flowers are double and fragrant, borne continuously throughout the season.

Rose, Hugonis, clear yellow flowers

Bush Roses

Hardy Without Winter Protection

IN addition to the Hardy Hybrid Rugosa Roses the following are dependable and hardy without covering. They are quite varied in their form and have a wide appeal to those interested in roses. They are useful for planting with shrubbery and for naturalizing on banks. The flowers are delightful and the bright red fruit is very attractive during the fall and early winter. The fruits furnish about twenty-five species of birds with food, according to a government bulletin.

BLANDA. 3 to 4 ft. The canes are almost thornless and grow from three to five feet high. The soft, pink flowers measure two inches across and are borne in clusters. The bright red seed hips are attractive in winter. Desirable for covering banks and will grow in sandy or poor soil. Hardy everywhere.
18 to 24 in..... \$0.50 ea.
2 to 3 ft..... .65 ea.
3 to 4 ft..... .80 ea.

HARRISON'S YELLOW. 4 to 5 ft. The soft yellow, semi-double fragrant flowers are borne during early June in great profusion and the foliage keeps bright and healthy-looking until late in the fall. The best semi-double yellow Rose for this section. This is the yellow Rose Grandmother grew.
Strong plants, 18 to 24 in.....\$1.00 ea.
2 to 3 ft..... 1.25 ea.

HUGONIS. 4 to 5 ft. A yellow rose producing single flowers in great profusion early in the spring. The bush develops into a beautiful plant and retains its foliage throughout the late fall. The refined foliage is beautiful the entire growing season and the graceful growth of the bush makes it one of the

most desirable plants for shrub plantings.

18 to 24 in.....	\$0.50 ea.
2 to 3 ft.....	.75 ea.
3 to 4 ft.....	1.00 ea.

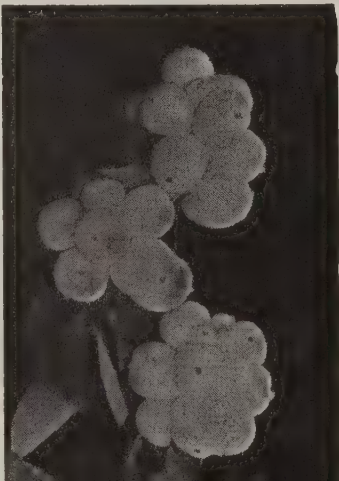

LUCIDA. 4 to 5 ft. This dense-growing handsome shrub has healthy bright green foliage. The single flowers are pink followed by shining red fruit which is attractive. Desirable for covering banks or in the shrub border.
18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .75 ea.

RED-LEAVED ROSE. (Rubrifolia.) 4 to 5 ft. The intensely pink single flowers are borne in abundance upon upright stems with crimson foliage. The foliage remains red throughout the entire summer giving the bush a very attractive appearance from early spring when the first red leaves appear until late winter when the red fruit disappears. A fine bush to plant with other shrubs.
2 to 3 ft.....\$0.75 ea.
3 to 4 ft..... 1.00 ea.

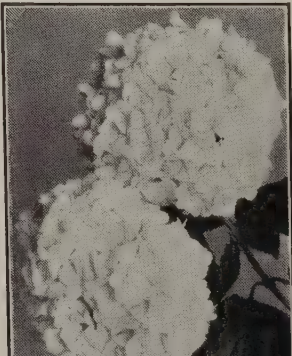

SNOWBALL. (Viburnum Opulus Sterilis.) 7 to 8 ft. A well-known shrub attaining a height of 8 to 10 ft. Flowers pure white in round clusters about the first of June. An old favorite. Striking in appearance when the bush is covered with snowball-like clusters of flowers. See picture.
18 to 24 in..... \$0.50 ea.
2 to 3 ft..... .75 ea.
3 to 4 ft..... 1.00 ea.

SNOWBERRY, Red or Indian Currant. (Symphoricarpus Vulgaris.)
3 to 4 ft. Of low-growing, graceful habit. Numerous small pink flowers followed by interesting coral colored berries.
18 to 24 in.....\$0.50 ea.
2 to 3 ft..... .75 ea.

white flowers

SNOWBERRY, White. (*Symphoricarpus Racemosus*.) 3 to 4 ft. A rather low-growing shrub with small pink flowers followed by a mass of very attractive white berries which cling late in the fall. Will grow well in sun or partial shade. Excellent for massing in front of taller shrubs or for planting against the house. Birds eat the berries. See picture, page 16.

18 to 24 in. \$0.50 ea.
2 to 3 ft.75 ea.

SPIREA, Anthony Waterer. 2 to 2½ ft. One of the finest of low growing shrubs. It has attractive foliage and produces an abundance of rosy crimson flowers. By cutting off the old flowers, continuous new bloom will develop throughout the summer. Useful in foundation plantings and in the foreground of shrubbery borders. The autumn coloring of the foliage is beautiful. See picture.

12 to 18 in. \$0.50 ea.
18 to 24 in.75 ea.
24 to 30 in. 1.00 ea.

SPIREA, Arguta. 3 to 4 ft. A very graceful early flowering shrub blooming with white flowers before the Bridal Wreath. Slender arching branches clothed with feathery green leaves. Combines well with flowering plum as both bloom very early. See picture below.

18 to 24 in. \$0.50 ea.
2 to 3 ft.75 ea.

SPIREA, Snow Garland. 3 to 4 ft. Flowers resemble the Arguta and bloom about the same time. Snow Garland is more graceful and more bushy. Combines nicely with Bridal Wreath to prolong blooming season. Excellent for foundation planting.

18 to 24 in. \$0.50 ea.
2 to 3 ft.75 ea.

Spirea, Anthony Waterer
Bright Crimson

SPIREA, Ash Leaved. (*Sorbaria Sorbifolia*.) 4 to 5 ft. Has long, feathery panicles of white flowers in July. Leaves resemble those of the Mountain Ash. Starts growth very early in spring. A thrifty grower, suitable for either sunny or shady locations. See picture top of page.

18 to 24 in. \$0.50 ea.
2 to 3 ft.60 ea.
3 to 4 ft.85 ea.

SPIREA, Billardi Rosea. 4 to 5 ft. Flowers spike shaped, rose pink in color. Starts blooming in late June and continues through August. See picture on page 16.

18 to 24 in. \$0.50 ea.
2 to 3 ft.75 ea.
3 to 4 ft. 1.00 ea.

SPIREA, Bridal Wreath. (*Spiraea Van Houttei*.) 5 to 6 ft. A great favorite. White flowers produced so freely along the gracefully drooping stems that the foliage can hardly be seen. Very hardy, will grow in partial shade.

2 to 3 ft. \$0.50 ea.
3 to 4 ft.75 ea.
4 to 5 ft. 1.00 ea.

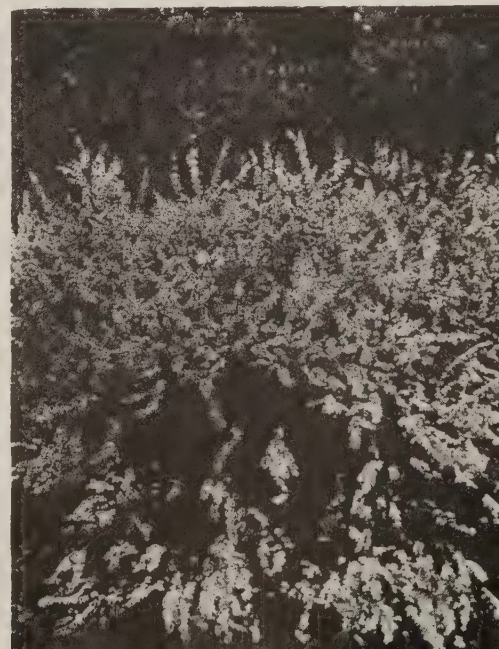

SPIREA, Froebeli. 2 to 3 ft. Flowers bright rosy-red in flat clusters, produced during July and August. Foliage purple red in early spring and again in the fall. A desirable low-growing shrub and deserves being included in every planting.

12 to 18 in. \$0.50 ea.
18 to 24 in.75 ea.
2 to 3 ft. 1.00 ea.

SUMACH, Cut-Leaved. (*Rhus Typhina Laciniata*.) 5 to 6 ft. The lace-like graceful leaves of a pleasing green are very attractive, especially so when they turn in autumn to varied hues of crimson and gold.

2 to 3 ft. \$1.00 ea.

Spirea, Arguta
Its white flowers are in bloom
before the Bridal Wreath

Tamarix Amurensis

ROSE HILL NURSERY

SYRINGA, Sweet-Scented Mock Orange. (Philadelphus Coronarius.) 7 to 8 ft. A vigorous growing shrub with sweet-scented white flowers in the greatest profusion about the middle of June.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.60 ea.
3 to 4 ft.	.85 ea.

SYRINGA, Virginal. (Philadelphus Virginalis.) 6 to 7 ft. A magnificent variety, growing moderately tall with good foliage and compact habit. The sweetly fragrant, double flowers, two inches or more in diameter, are of the purest white and excellent for cutting. An unusual feature of this variety is that while it has an exceptionally gorgeous display of bloom in June and early July, it also blooms intermittently into the fall.

18 to 24 in.	\$0.75 ea.
2 to 3 ft.	1.00 ea.
3 to 4 ft.	1.25 ea.
4 to 5 ft.	1.75 ea.

SYRINGA, Dwarf Golden Leaved. (Philadelphus Aureus.) 3 to 4 ft. A delightful dwarf shrub whose striking yellow foliage adds interest to foundation plantings or shrubbery borders. Fragrant white flowers in May and June. Will grow in full sun or in a shady situation.

12 to 18 in.	\$0.75 ea.
18 to 24 in.	1.00 ea.
24 to 30 in.	1.50 ea.

SYRINGA, Large Flowered. (Philadelphus Grandiflorus.) 8 to 9 ft. A large and vigorous growing shrub, producing a great wealth of creamy white blossoms of unusual size.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.60 ea.
3 to 4 ft.	.85 ea.
4 to 5 ft.	1.25 ea.

SYRINGA, Lemoine. (Philadelphus Lemoinei.) 4 to 5 ft. A trim dainty leaved member of the Mock Orange family. Semi-dwarf and fine for use in the foundation planting because of its neat habit. The white flowers grow in profusion and are delightfully perfumed. Blooms May and June.

18 to 24 in.	\$0.50 ea.
2 to 3 ft.	.75 ea.
3 to 4 ft.	1.00 ea.

TAMARIX. (Tamarix Amurensis.) 5 to 6 ft. The feathery, blue-green foliage and mid-summer, pink flowers, in long, airy, graceful racemes, make this a very attractive shrub. Excellent for contrast among other shrubs or when planted singly. See picture.

2 to 3 ft.	\$1.00 ea.
------------	------------

WAYFARING TREE. (Viburnum Lantana.) 6 to 7 ft. Large, attractive, robust shrub, with soft heavy leaves and clusters of white flowers in June. The red fruit is attractive to birds.

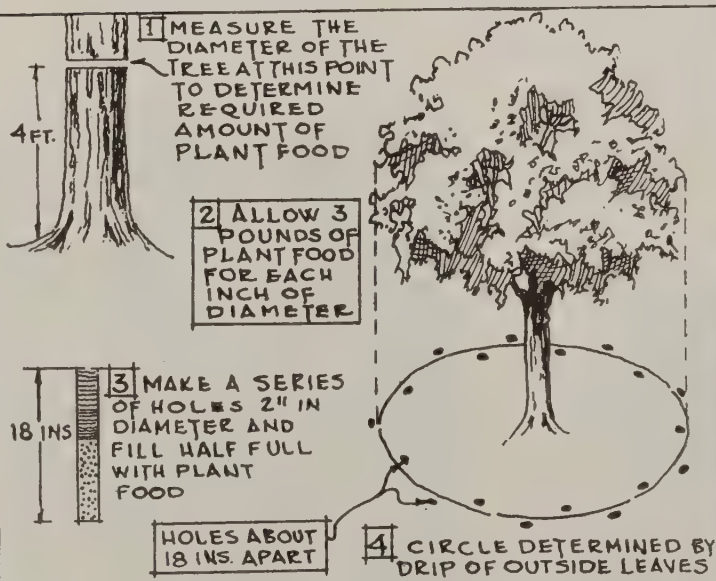

2 to 3 ft.	\$0.85 ea.
3 to 4 ft.	1.25 ea.

WEIGELA, Eva Rathke. 3 to 4 ft. A remarkably free bloomer, flowering continuously throughout the summer. Flowers a rich ruby carmine color. Needs winter protection.

2 to 3 ft.	1.00 ea.
------------	----------

WEIGELA, Rosea. 3 to 4 ft. Rose colored trumpet shaped flowers in late June are produced very freely. Needs winter protection.

2 to 3 ft.	1.00 ea.
------------	----------

Hybrid Tea Roses

Rose Hill Roses Are Famous For Quality

OUR roses are extra fine large plants that bloomed freely last summer, most varieties being 2 to 3 feet high and with ordinary care will produce an abundance of flowers this coming summer. No better roses can be purchased. Our plants have not been packed in boxes and exposed on bargain counters for days.

These fresh roses at \$1.00 each are fully as good or better in quality and size than roses sold in packs or pots at stores for \$1.25 each.

POSTAGE—If wanted by parcel post please add for postage and packing figuring average weight of each rose at 2 pounds. See parcel post rates on page 37.

Double Ever-Blooming Hybrid Tea Roses

These are the so-called ever-blooming roses. If the bushes are kept healthy and in good growing condition, though they do not bloom all the time, one crop of flowers follows another at short intervals from June to late October. Winter protection is necessary. The flowers are very beautiful in color, form and fragrance.

Strong 2-year plants \$1.00 each, \$10.00 per doz. Extra heavy \$1.25 each, \$12.50 per doz.

BETTY UPRICHARD. Copper and Pink. Copper red buds open to good sized flowers of salmon-pink tinted with copper-pink on the outside. Spicy fragrance. Continuous bloomer.

DAME EDITH HELEN. Pink. A sweetly scented, clear pink Rose of fine form. This vigorous plant produces bloom freely on long, strong stems.

E. G. HILL. Red. Glowing crimson-red with dark shadings. A fine, full flower carried erect on strong stems. Good foliage. Very free flowering.

ETOILE DE HOLLANDE. Red. The half-opened flower is perfect in form and develops into a large, artistically loose bloom of brilliant crimson. It has wonderful fragrance. The plant is strong, with large, healthy foliage, and will thrive in almost all soils and situations.

FRAU KARL DRUSCHKI. White. A hybrid perpetual Rose. Considered the best white Rose of any class. The splendid, snow-white flowers have beautiful form. Blooms are borne freely on a strong growing plant. See picture.

GRUSS AN TEPLITZ. Red. The double blooms of medium size are brilliant crimson with darker shadings. Splendid fragrance. Blooms most freely in open clusters through the whole season. A universal favorite.

K. A. VICTORIA. White. Well formed, creamy buds develop into flowers of perfect form, snow-white with slight tint of yellow at the center. Fragrant. Extremely lovely.

KILLARNEY. Pink. Has long pointed buds opening to a flat flower with enormous petals. Bright pink in color. A very free-flowering, vigorous grower. See cut.

MRS. E. P. THOM. Yellow. Rated as one of the best yellows. A very free, continuous bloomer; growth strong and bushy. Flowers are pure yellow, buds pointed.

MRS. JOHN LAING. Hybrid Perpetual. Large blooms of clear pink, cup shaped, double and very fragrant. Flowers profusely on an erect thornless plant. Very lovely.

PINK RADIANCE. Pink. The most reliable pink Hybrid Tea Rose. Brilliant rose pink buds, opening to well-shaped, very fragrant flowers, which have splendid keeping quality when cut. See cut.

PRESIDENT HOOVER. Orange and Scarlet. Very highly colored, vivid cerise pink suffused with yellow, orange and scarlet. Delightfully perfumed. One of the newer Roses.

RED RADIANCE. Red. The flowers are large, deep red; produce freely until frost. Foliage excellent. A very popular Rose.

ROSE MARIE. Pink. Fragrant, clear, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Always reliable.

SUNBURST. Yellow. Beautiful yellow flowers strongly suffused with orange at the center. Flowers are well shaped and fragrant. See cut.

TALISMAN. Copper and Red. Many beautiful shadings of scarlet, pink, copper and gold are all found in the flowers. Splendid for cutting.

Climbing Roses

A climbing rose in bloom is delightful to behold. The profusion of flowers in red, pink, yellow or white with the background of green foliage is striking. Climbing roses need the support of a trellis of some kind. In the fall the canes should be taken from the trellis, laid upon the ground and covered with about a foot of marsh hay and over that a layer of water proof paper to shed moisture.

Strong 2-year plants\$1.00 each 3-year\$1.25 each

CLIMBING AMERICAN BEAUTY. Rosy Crimson. The delightful rosy crimson flowers are produced on separate stems in clusters. Their lovely fragrance and profusion of bloom give this rose high rank.

DOROTHY PERKINS. Pink. The rather large, double, clear shell-pink flowers are borne in pendulous sprays. The fragrant flowers do not fade in color.

EXCELSA. Crimson. The deep scarlet crimson blooms are produced in profusion in large clusters. A vigorous grower. Has largely replaced the Crimson Rambler.

PAUL'S SCARLET CLIMBER. Scarlet Red. The well-shaped scarlet flowers are of moderate size and borne in small trusses. They are borne early and last a long time. The plant is of moderate size with good foliage. See cut.

STAECHELIN. Pink. (The Spanish Beauty.) A splendid new climbing Rose, which has the added advantage of being excellent for cutting, as the flowers are borne on 12 to 15 inch stems. Crimson buds opening into large, semi-double pink flowers. The plant is extremely vigorous, making a growth of 10 feet or more each year. One of the most useful and effective.

TAUSENSCHOEN or THOUSAND BEAUTY. Pink. Prettily ruffled large flowers of shades of creamy white and changing to bright rose-pink. A healthy grower.

Paul's Scarlet Climber
Intense scarlet

Baby Rambler or Polyantha Roses

These rather small, bushy plants are the most truly ever-blooming of all roses. The bloom is borne in heavy clusters throughout the summer until frost. The size of the bush makes it especially adaptable to home yard plantings. Require careful covering for winter.

2-year-old plants\$1.00 each, \$10.00 per dozen

CATHERINE ZIEMET. Double pure white flowers in abundance borne in large fragrant clusters.

MISS EDITH CAVELL. The semi-double flowers are a brilliant scarlet red, rather small in size, produced in large clusters on well branched plants.

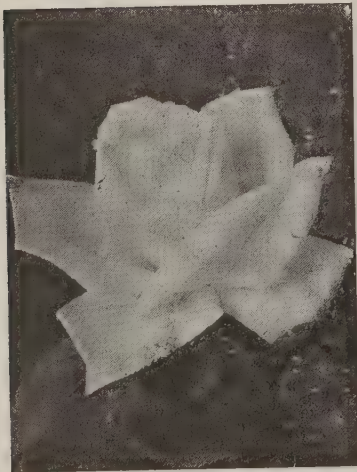

ELLEN POULSEN. Rather large, full flowers of bright rose-pink in large compact clusters. Fragrant; profuse blooming. Dwarf bushy plant.

Fr. Karl Druschki H. P.
Snow white

HOW TO PLANT ROSES

- 1st. Dig a hole so large the roots won't be cramped.
 - 2nd. Place plant depth shown. Fill hole nearly to top with rich soil. Water thoroughly to firmly settle soil.
 - 3rd. Trim plant to about 7 or 8 inches in height as picture shows.
 - 4th. Cover entire top of the plant with a mound of loose soil about 9 inches high.
 - 5th. In about two weeks pull a little of the loose soil away to observe if buds are bursting open. If buds are opening, carefully pull away the mound of loose soil. If buds are still dormant leave the mound of soil until buds are observed to burst open, then remove mound.
- WINTER COVERING**—Cover for winter this same way and over the mound place about a foot of marsh hay, then a layer of building paper.

Hedges

Beautiful Borders of Living Green

PLEASE NOTE—25 or MORE plants are sold at the 100 rate.

THE most attractive wall or fence and the best is the living hedge. It does not need to be painted as it gives itself a new coat every year. A hedge will effectively screen out undesirable views or shut out trespassers. Plant a hedge where you need a fence. Listed below you will find hedge plants suited for all purposes and locations. Our plants are grown in the open nursery rows where they have been given ample room for both root and top development.

BARBERRY, Japanese or Thunberg's. (*Berberis Thunbergii*.) Of low spreading growth, forming a dense hedge. The twiggy branches are set with small sharp thorns and bright, clean foliage which in the fall turns to gold and scarlet. The brilliant, red berries are attractive in the fall and winter. A fine plant for a low hedge whether trimmed or allowed to grow naturally.

12 to 18 in. \$20.00 per 100 18 to 24 in. \$25.00 per 100

BUCKTHORN. (*Rhamnus Catharticus*.) A very satisfactory plant to use when a medium high to tall hedge is wanted. It stands trimming so well that it can be kept for a long period at practically any height desired. The Buckthorn we offer have been transplanted and twice cut back, making the plants well branched right from the bottom. Many nurseries offer plants which are seedlings and do not have the root system or the low, well branched tops.

12 to 18 in. \$ 8.00 per 100 2 to 3 ft. \$18.00 per 100
18 to 24 in. 14.00 per 100 3 to 4 ft. 22.00 per 100

CARAGANA or SIBERIAN PEA TREE. (*Caragana Arborescens*.) Thrives in any well-drained soil and is hardy in the most exposed locations. Is suitable for use where a medium or tall-growing hedge is desired. Sometimes the foliage does not remain in good condition during the latter part of the summer.

18 to 24 in. \$15.00 per 100 2 to 3 ft. \$20.00 per 100

COTONEASTER or QUINCEBERRY. (*Cotoneaster Acutifolia*.) The fresh-looking, glossy green foliage of this plant and its thrifty, dense growth, combined with its hardiness, make it ideal as a hedge plant for use in Minnesota and surrounding states. Even during periods of extremely dry hot weather the foliage retains its healthy, glossy green color, having the appearance of being varnished. It stands trimming well. The foliage turns to lovely shades of yellow and red in the fall. The beauty of this hedge far surpasses any other hedge grown in the Northwest. Cotoneaster is unusually free from pests of all kinds but is occasionally infected with scale, which causes the branches to become roughened and of a grayish color. A very effective cure is to spray before the buds open in the spring (about April 1st) with a solution composed of 10 tablespoons of Dry Lime Sulphur and one gallon of water or one part Liquid Lime Sulphur and seven parts of water. The spraying must be done before growth starts. We especially recommend Cotoneaster to our customers.

12 to 18 in. extra fine heavy plants... \$10.00 per 100
18 to 24 in. extra fine heavy plants... 17.50 per 100
2 to 3 ft. extra fine heavy plants... 22.50 per 100
3 to 4 ft. extra fine heavy plants... 30.00 per 100

Alpine Currant Hedge on grounds of Women's Club of Minneapolis, 410 Oak Grove

Cotoneaster Hedge—The clean-appearing, glossy leaves and robust growth make this hedge a favorite

CURRENT, Alpine. (*Ribes Alpinum*.) Choice plant for use where a hedge of rather low growth is wanted. It is perfectly hardy and has dense foliage of a pleasing green. Will stand partial shade. We recommend this plant highly where a low hedge is wanted.

10 to 12 in. \$20.00 per 100 18 to 24 in. \$35.00 per 100
12 to 18 in. 27.00 per 100 2 to 3 ft. 40.00 per 100

HANSA ROSE. (*Hybrid Rugosa*.) This plant makes a fine untrimmed hedge. The healthy, attractive, heavy, crinkled foliage withstands drought and extremely hot weather without injury. The large double red flowers are fragrant, very ornamental and are produced in great abundance during June and early July. Scattered flowers are also produced during the balance of the summer and fall. Plants should be cut back to within a foot of the ground early each spring to produce strong flowering shoots.

18 to 24 in. \$50.00 per 100

HONEYSUCKLE, Tatarian. (*Lonicera Tatarica*.) For use as a large hedge this plant is very satisfactory. It is perfectly hardy and a strong grower. It has myriads of small attractive flowers followed by red berries.

18 to 24 in. \$25.00 per 100 3 to 4 ft. \$40.00 per 100
2 to 3 ft. 35.00 per 100

LILAC, Common Purple or White. (*Syringa Vulgaris*.) Though this plant yields readily to trimming, it is best suited for use as a hedge where it may be left untrimmed. The lovely flowers, one of its chief attractions, would not be produced if trimming were done. Should be planted only where the plants will have room to grow quite large. Please specify color wanted.

18 to 24 in. \$25.00 per 100 3 to 4 ft. \$40.00 per 100
2 to 3 ft. 30.00 per 100

MAPLE TATARIAN. (*Acer Tataricum Ginnala*.) This handsome shrub makes a very good, tall growing hedge. Serves well either as a clipped or natural growing hedge. The leaves are brilliantly colored in the fall.

18 to 24 in. \$30.00 per 100 3 to 4 ft. \$40.00 per 100
2 to 3 ft. 35.00 per 100

SPIREA, Bridal Wreath. (*Spiraea Van Houttei*.) The splendid, graceful foliage and lovely white flowers of this plant make it very desirable for use where an unsheared hedge is desired. It is perfectly hardy and thrifty growing.

18 to 24 in. \$20.00 per 100 3 to 4 ft. \$40.00 per 100
2 to 3 ft. 25.00 per 100

Buckthorn Hedge

PLANTING THE HEDGE

We recommend planting Cotoneaster, Buckthorn and Caragana 8 inches apart in a single row. If a very wide hedge is desired, plant in two rows, each row 8 inches apart and the plants one foot apart in each row, staggered.

The remainder of the plants listed on this page should be planted one foot apart in a single row.

Do not fail to trim every plant immediately after planting to at least one-half its original size. Leaving only the lower one-fourth would be still better. The secret of securing a dense hedge is to cause the plants to branch out near the ground by trimming as advised above.

POSTAGE

If shipment is wanted by parcel post please add for postage and packing. Figure average weight for 100 hedge plants as follows: 12 to 18 in. sizes, 22 lbs.; 18 to 24 in., 30 lbs.; 2 to 3 ft., 50 lbs.; 3 to 4 ft., 70 lbs.

See parcel post rates on page 37.

HEDGE PLANTING CHARGES

A planting charge of twenty cents per lineal foot is charged for planting all varieties and sizes of hedge plants.

Climbing Vines

VINES create a graceful softening effect. The flowering beauty of many varieties has splendid merit and as shade givers they are very fine. Used to embellish an otherwise drab wall or ugly bank, they are indispensable.

Postage—If shipment is wanted by parcel post please add for postage and packing figuring at the average weight of 1½ pounds to each vine. See parcel post rates on page 37.

BITTERSWEET. (*Celastrus Scandens.*) A hardy, strong-growing vine with glossy leaves. The yellow flowers are followed by conspicuous reddish-orange fruits, attractive on the vine and often used as indoor bouquets when dried.
2 year.....\$0.60 3 year.....\$0.85

CLEMATIS HENRYI. The lovely white flowers are truly gigantic in size. Growth is vigorous, often reaching eight feet in height.
2 year.....\$1.00 3 year.....\$1.25

CLEMATIS JACKMANI. The gorgeous display of bloom presented by this plant is unequalled among climbing vines. The striking purple flowers often measure six inches across. Being of refined habit it may be grown against the house and in other situations where a coarse-growing vine is not wanted. This Clematis is the most popular vine of all. See cut.
2 year.....\$1.00 3 year.....\$1.25

CLEMATIS, MADAME EDWARD ANDRE. Flowers are about the same size as the Jackmani, crimson red in color. Has a long season of bloom.
2 year.....\$1.00 3 year.....\$1.25

CLEMATIS PANICULATA. The flowers are white, small and star-shaped, very fragrant and so abundant as to almost hide the foliage. It blooms late in the summer when most other vines are through blooming.
2 year.....\$1.00 3 year.....\$1.25

DUTCHMAN'S PIPE. (*Aristolochia Siphon.*) A vigorous, rapid-growing climber with pipe-shaped flowers. The light green leaves are of very large size, and overlapping they cast a dense shade. \$1.25 each.

GRAPE, Beta. This Grape makes one of the best vines for covering porches and arbors. It is perfectly hardy without winter protection and produces an abundance of fruit of medium size.
2 year extra large.....\$0.50

Boston Ivy
Neat foliage, clings well to brick or stucco

Clematis, Jackmani
Striking purple flowers

GRAPE, Alpha. A strong growing hardy vine, yielding large quantities of black grapes. Fine to cover arbors or to screen a porch for privacy and shade. Needs no winter protection.
2 year extra large.....\$0.50 ea.

CLEMATIS CULTURE

Plant in well drained rich soil. The hole should be deep enough to accommodate the roots without spreading too much. If the roots are very long and numerous they may be cut back to 6 or 8 inches and some of the weaker roots thinned out. The roots should be separated enough so that soil comes firmly into contact with all the roots. Water thoroughly once a week only, if rain has not already done the watering. As it is essential to keep Clematis roots cool and moist a mulch of peat moss may be used to advantage. A trellis is the best support for them to climb on.

HONEYSUCKLE, Scarlet Trumpet. (*Lonicera Sempervirens.*) An old favorite; bearing scarlet, trumpet-shaped blossoms. Flowers practically all summer. Interesting, attractive clean appearing foliage. This strong growing vine will often grow 8 to 10 feet in one season. Fine for covering arbors, trellises, etc.
2 year.....\$0.60 3 year.....\$0.85

IVY, Boston. (*Ampelopsis Vetchi.*) A very lovely small leaved vine, refined in habit. Clings firmly to such surfaces as presented by brick, coarse plaster, etc. The foliage is fresh deep green in summer, changing to the brightest shades of crimson and yellow in the fall. The most desirable ornamental self clinging vine for this section. See picture.
2 year.....\$0.75 3 year.....\$1.00

IVY, Engleman's. (*Ampelopsis Engelmani.*) Splendid to cover brick or stone walls or any other rough surface where a vigorous growing, clinging vine is wanted. It is a rapid grower. The young growth has a purplish tinge, maturing dull green and turning a bright crimson color in the fall.
2 year.....\$0.50 3 year.....\$0.75

IVY, AMERICAN or VIRGINIA CREEPER. (*Ampelopsis Quinquefolia.*) A popular native vine with deeply cut leaves which turn to a beautiful crimson in the fall. Fine for covering rocky slopes, arbors, fences, etc.
2 year.....\$0.50 3 year.....\$0.75

MATRIMONY VINE. (*Lycium Chinense.*) Planted at the top of walls or embankments, this vine hangs gracefully down, covering beautifully the unsightliness of the ugly surface. The small, star-shaped, purple flowers are succeeded by bright, scarlet, coral-like berries nearly an inch long.
2 year.....\$0.60 3 year.....\$0.85

Colorful Hardy Perennials

Flowers Which Live Year after Year in the Garden

THE plants we offer are strong field-grown perennials which in most varieties will bloom freely the first season and should not be confused with seedling plants so often offered for sale.

POSTAGE—If shipment is wanted by parcel post, please add to cover postage and packing figuring the average weight of 1 pound to each perennial plant. See parcel post rates on page 37.

Perennials moved during the summer and early fall which require a ball of earth to assure successful transplanting are charged for at 10c each above the rate specified in this catalog.

NOTE—Plants suitable for rock gardens are marked thus*

ACHILLEA EUPATORIUM. Fern-Leaved Yarrow. Brilliant yellow flowers in flat heads in July or August. Foliage finely cut. Very hardy. May be dried for winter bouquets. Three to four feet. 35c each. 3 for \$1.00. 6 for \$1.90.

ACHILLEA, Ptarmica. Snowball. A new Achillea of neat habit, fine for borders. Flowers of perfect form. Blooms over a long period, June to September. 35c each. 3 for \$1.00. 6 for \$1.90. See picture.

ACONITUM FISCHERI. Monkshood. The helmet-shaped dark blue flowers are produced in September and October. A low-growing variety being 2 to 3 feet high. Very hardy and attractive. Will grow in partial shade. 50c each. 3 for \$1.40. 6 for \$2.70.

AGROSTEMMA CORONARIA, Rose Campion. A striking appearing plant with its cerise crimson flowers pinklike in form. Stems and leaves are silvery gray. Blooms July and August. 2 to 2½ feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

ANCHUSA ITALICA. Dropmore. Stately plants of easy culture growing 4 to 5 feet high and producing masses of rich gentian blue flowers in June and July. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA CANADENSIS.* American Columbine. The native bright red and yellow variety. Blooms June to August, 2 feet high. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA.* Crimson Star. Its flowers are very large with crimson sepals and spurs, and white petals; an entirely new color in Aquilegias. The plant has a sturdy free-flowering habit blooming June to August. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA CRYSANTHA.* Golden Columbine. The beautiful golden yellow flowers are in bloom from June to August. 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA CAERULEA.* Colorado Columbine. Lovely blue flowers with long spurs. June and July. 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

Aquilegia
(Columbine)
Pink, blue, yellow,
crimson, or red and
yellow
All Aquilegias will
grow in semi-shade

AQUILEGIA.* Mrs. Scott Elliot's Strain. Large size, long spurred flowers in all shades blooming from June to August. 35c each. 3 for \$1.00. 6 for \$1.90.

AQUILEGIA. Pink Beauty. Delightful bright pink flowers of large size. 35c each. 3 for \$1.00. 6 for \$1.90.

ARABIS ALPINA.* Alpine Rockcress. Dense masses of pure white flowers. 10 to 12 inches, blooms May to August. Fine for border and rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

ARTEMISIA.* Silver King. A striking plant with silvery gray leaves. A brilliant contrast plant in the garden and lovely when cut for winter bouquets. 3 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

ASTER ALPINUS GOLIATH.* Showy bluish purple flowers in May and June. 6 to 10 inches. Fine for rockery or edge of borders. Plant in full sun. 35c each. 3 for \$1.00. 6 for \$1.90.

ASTER AMELLUS HYBRIDS. Large showy flowers of various shades of blue are profusely borne over the entire plant from August until frost. 2½ feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

ASTILBE. Pink Plume. Feathery plume-like pink colored flowers in June and July. Handsome foliage. Very attractive in flower border. About 2 feet tall. 50c each. 3 for \$1.40. 6 for \$2.70.

ASTILBE. Marquerite Vanrechteren. The feathery plumes are bright red tinged with purple. This plant blooms in June and July and produces flower stems about two feet in length. 50c each. 3 for \$1.40. 6 for \$2.70.

ASTILBE. WHITE. Airy, plume like flower stalks about eighteen inches tall. The feathery white flowers add a delightful touch to the garden. They prefer light shade and rich soil. 50c each. 3 for \$1.40. 6 for \$2.70.

BAPTISIA AUSTRALIS. False Indigo. Pea-shaped flowers of dark blue which resemble Lupines. Blooms in June, produced on 2 foot spikes. 35c each. 3 for \$1.00. 6 for \$1.90.

Hardy Fall Aster or Michaelmas Daisy

THIS group of lovely autumn flowering perennials is of splendid value for use as a show flower in the garden or as cut flowers. The flowers are produced in great profusion on long stems that hold the blooms strongly upright and make cutting easy. Average height 3 to 4 ft. The following named varieties give a wide range of colors to choose from.

All 35c each. 3 for \$1.00. 6 for \$1.90.

ALDERMAN VOLKES. A lovely new Aster; bright rosy red flowers are borne profusely in clusters. About 24 inches tall.

BEECHWOOD CHALLENGER. Lovely flowers of crimson-red are produced in profusion. An outstanding variety.

BLUE GEM. Double flowers of rich blue. The finest blue.

ERICA. The flowers are a most attractive pink. Fine for cutting like all the hardy Asters.

LADY LLOYD. The clear rose pink flowers are very fine and long lasting.

ASTER NOVAE ANGLIAE. A purple variety of outstanding merit. The almost fully double flowers are produced by the hundred on fine upright stems about 3 feet high.

PEGGY BALLARD. Large sprays of double rosy mauve flowers produced in great abundance.

SUNSET. A delightful new Aster with flowers of sunset pink. Very free flowering. Grows about 36 inches high.

WHITE LADY. The clear white semi-double flowers are produced freely on a plant 3 to 4 feet tall.

Achillea, Snowball

ROSE HILL NURSERY

BOLTONIA LATISQUAMA. Profusely covered with thousands of starlike lavender-pink flowers on plant 4 to 6 feet tall. Excellent cut flowers for large gardens. August and September. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

CAMPANULA MEDIUM. Canterbury Bells. Large, bell-shaped flowers in blue, pink or white. A biennial 3 feet tall. Blooms late June and July. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

CAMPANULA CALYCANTHEMA. Cup and Saucer, Canterbury Bell. A tall, erect-growing biennial. Flowers large, cup and saucer shaped, during late May and June. Colors, blue and white. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

CAMPANULA CARPATICA.* Carpathian Harebell. A dwarf, compact plant 8 to 10 inches high. Flowers clear blue, bell-shaped, in July and August. A good border plant. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

CAMPANULA PERCISIFOLIA. Peach Leaf Bellflower. Flowers of blue or white rather more shallow than bell shaped. Grows from 2 to 3 feet tall. Has long narrow leaves and is very graceful. June and July. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

CAMPANULA ROTUNDIFOLIA. Blue Bells of Scotland. The compact, slender, arching stems, 12 to 18 inches high, are completely covered with beautiful, blue, bell shaped flowers, continuing to bloom from early July into the fall. The refined foliage remains in a healthy condition throughout the season and the plant presents a fine appearance during the whole summer. **35c** each. 3 for **\$1.00**. 6 for **1.90**.

CARNATION, Hardy Border. The most hardy variety of double carnations for the border. The brilliantly colored flowers are a riot of color. Their spicy fragrance and the perfect form of the flower make them valuable cut flowers. Bloom all summer. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

Offered in the following colors:

Bright Scarlet. A vivid, striking red carnation. Attractive in the garden and fine for cutting.

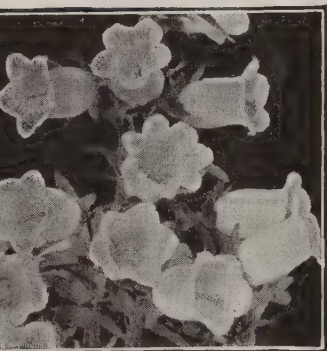

King of Blacks. Flowers of deepest maroon. Almost black. Fine for cutting.

Rose Queen. A great favorite. Rose pink flowers on strong, wiry stems.

Salmon Pink. A profuse bloomer with delightful salmon pink flowers of good size.

White Gem. White flowers. Profuse blooming and fine for cutting.

White Gold. A delightful pale yellow. Like the others it is fine for cutting and blooms profusely.

Campanula Medium, Canterbury Bells, blue, pink or white

with hundreds of most attractive flowers. They bloom from early autumn until late freezing weather, after practically all other flowers are frozen. All priced at **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

Bronze Cushion. Lovely bronze flowers turning to bronzy coppery yellow.

Pink Cushion-Amelia. The original 'mum of this type. Literally hundreds of lovely pink flowers.

Red Cushion. Red flowers in profusion similar to the others of this group.

White Cushion. When opening flowers show a delicate tint of pink later turning to pure white.

Yellow Cushion. Bright yellow flowers in profusion. Fine for cutting like all the 'mums.

OTHER HARDY CHRYSANTHEMUMS 50c each. 3 for \$1.40. 6 for \$2.70. Except where noted.

Algonquin. Showy pure yellow flowers measuring 2½ inches across. Dwarf spready habit.

Autumn Lights. Coppery bronze semi-double blossoms with gleaming orange overcast. Height 18 inches.

Burgundy. Rich cerise-crimson, acquiring deeper amaranth tones in the center, describes the flowers of this lovely double, sweet-scented Chrysanthemum. The fine clusters of bloom are on heavy stems. Blooms in October.

Chippewa. Introduced by the University of Minnesota. A very showy flower, aster-purple in color and aster like in shape. Bushy plant 20 inches tall. Flowers nearly 3 inches across. Blooms early to mid-season. Very fine. **60c** each. 3 for **\$1.65**. 6 for **\$3.00**.

Clara Curtis. Lavender pink. Single daisy like flowers are borne in profusion. Comes into bloom in August. Plants are about 18 inches tall and very profuse blooming.

Dean Ladd. Flowers are double, reddish bronze, a unique autumn color. Prominent for its early blooming.

Dean Kay. Produces a great abundance of rose-pink double flowers on a vigorous plant.

Early Bronze. Color is a lively bronze yellow. The double flowers are profusely borne.

Ember. A brilliant glowing bronze—a combination of coral and orange shades. Large double flowers.

My Lady. Large double, orange-yellow flowers produced early on an attractive plant. Very choice. **60c** each. 3 for **\$1.65**. 6 for **\$3.00**.

Pygmy Gold. A distinct dwarf Korean Pompom type producing quantities of blossoms slightly over 1 inch across. The color is a clear golden yellow remarkable for its brilliance.

Rusty Red. The color of this attractive variety is well described by its name. Comes into bloom among the earliest.

Tassiva. Pure white double flowers of compact form about 2 inches in diameter. Freely produced and fine for cutting.

Vulcan. Glowing carmine red which shades to crimson and finally to bronze crimson as the flower matures. Fragrant.

White Gull. This variety resembles the cushion type in manner of growth. The pure white flowers however are like the pompoms in form.

Yellow Dean Kay. Bright golden yellow double flowers, an enchanting addition to Chrysanthemum varieties.

Number 77. A new yellow variety with ruffled or laciniated petals. Very prolific blooming and most attractive in the garden or as a cut flower.

Number 81. A new 'mum with formal double flowers of clear yellow. Decorative in the garden and fine for cutting.

Number 107. A choice new deep orchid colored 'mum of great promise. Combines beautifully with the yellow or white 'mums in bouquets and for garden effect.

Chrysanthemums, we offer red, white, pink, yellow, bronze and orchid

Coreopsis, Golden Yellow

CERASTIUM TOMENTOSUM.* Snow in Summer. Snow white flowers produced in abundance during June through August. Silvery white foliage. 10 to 12 inches tall. Fine for borders or rock gardens. 35c each. 3 for \$1.00. 6 for \$1.90.

CHELONE BARBATUS. Spikes two feet long of bright scarlet flowers from June till August. The individual flowers somewhat resemble the snapdragon. Good for cutting and showy in the flower border. 35c each. 3 for \$1.00. 6 for \$1.90.

COREOPSIS. An abundance of golden yellow daisy-like flowers from June until October. Makes a fine showing in the garden and splendid for cutting as the stems are wiry and graceful. See picture left. 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

Dicentra (Bleeding Heart)
Pink flowers

Dahlias

JERSEY'S BEACON. Chinese scarlet flowers of large size on strong stems. Very attractive. Formal decorative. 35c each. 3 for \$1.00. 6 for \$1.90.

JANE COWL. Warm buff and old gold blending to apricot and rose at the center. Informal decorative. Strong growing. 35c each. 3 for \$1.00. 6 for \$1.90.

JERSEY'S BEAUTY. Considered the very best all-around Dahlia for ever purpose. It surely is the finest true pink variety in commerce today. Formal decorative. 35c each. 3 for \$1.00. 6 for \$1.90.

WHITE WONDER. The giant blooms are pure white with long pointed, twisted and curled petals, giving the flower a light, fluffy appearance. Informal decorative. Strong vigorous grower. 35c each. 3 for \$1.00. 6 for \$1.90.

YELLOW KING. Clear, bright, lemon yellow flower of the formal decorative type. Excellent cut flower. Flowers about 5 to 6 inches in diameter. 35c each. 3 for \$1.00. 6 for \$1.90.

Delphinium--Larkspurs

DELPHINIUM BELLADONNA. One of the most continuous bloomers of all Larkspurs, with delicate clear turquoise blue flowers. 4 to 5 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM BELLAMOSA. A very rich dark blue shade. Flowers on spikes 15 to 18 inches long, excellent for cutting. Blooms for a long period if kept cut. 35c each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM. Blackmore and Langdon Strain. Selected as one of the best of the English strains. Extra large flowers, excellently placed on strong, sturdy stems. Many of them measure over 6 feet in height. A blending of rich blues. 35c each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM, Blue Grotto. A very rich, dark blue shade. Flower spikes 15 to 18 inches long. Excellent for cutting. 35c each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM CHINENSE. Handsome feathery foliage and deep gentian blue flowers. June through September. 1 to 2 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

DELPHINIUM GOLD MEDAL HYBRIDS. This is an extra fine strain of strong vigorous habit with large spikes of flowers from two to three feet long; in fine shades of light blue to deep indigo blue and royal purple with pastel tones of mauve, pink and lavender blendings. Some forms are double, some single. See picture. 5 to 6 feet. 50c each. 3 for \$1.40. 6 for \$2.70.

DELPHINIUM, Giant Pacific Hybrids. This is the most beautiful of the Delphiniums. The stems are wiry, strong enough to resist high winds. Under good conditions, these plants will produce beautifully proportioned spikes 3 to 5 feet in height. The individual flowers are large, 2 to 3 inches in diameter, of delicate shadings and of good form and substance. We strongly recommend the plants both for the bright landscape and for cutting.

Lavender Shades, Light Blue Shades, Dark Blue Shades and White.

Separate colors 50c each. 3 for \$1.40. 6 for \$2.70.

Mixed colors 50c each. 3 for \$1.40. 6 for \$2.70.

Larkspur (Delphinium)
Gold Medal Hybrids
in many shades

DIANTHUS ALPINUS ALLWOODI.* Glossy leaves and large flowers in various shades of rose and pink. July and August. 6-inch. Splendid for rock gardens. 35c each. 3 for \$1.00. 6 for \$1.90.

DIANTHUS BARBATUS. Sweet William. The old-fashioned garden favorite. Flowers in color combinations of red, white and pink. 1 1/2 to 2 feet. See picture. Blooms late May to July. 35c each. 3 for \$1.00. 6 for \$1.90.

DIANTHUS PLUMARIUS.* Clove Pink. Fragrant flowers in rose-pink and white. Handsome blue-green foliage. Splendid for rock garden or for edging. Blooms continuously if flowers are cut. 10 to 12 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

DICENTRA EXIMA.* Plumy Bleeding Heart. Beautiful finely cut foliage and pink heart-shaped flowers. Grows 12 to 18 inches high and blooms throughout the season. One of the choicest border plants. 50c each. 3 for \$1.40. 6 for \$2.70.

DICENTRA SPECTABILIS. Bleeding Heart. The heart-shaped pink flowers have long been a favorite. Grows 2 to 3 feet tall and blooms during late April and May. See picture. 60c each. 3 for \$1.65. 6 for \$3.00.

Dianthus (Sweet William)
White, red and pink flowers in variations

ROSE HILL NURSERY

DICTAMNUS FRAXINELLA, Gas Plant, Pink. A very satisfactory perennial plant growing about 2½ feet in height, having fragrant foliage and spikes of rosy pink flowers blooming during June and July. It is not only effective while in full bloom, but the dark, persistent foliage is ornamental throughout the summer. The plant is as hardy as a peony and should be given fully as much space to develop. It is long lived and should not be disturbed by frequent transplanting. **50c each. 3 for \$1.40. 6 for \$2.70.**

DICTAMNUS FRAXINELLA ALBA. Gas Plant, White. Similar to the Dictamnus described above but with white flowers instead of pink flowers. **50c each. 3 for \$1.40. 6 for \$2.70.**

DIGITALIS GLOXINIAEFLORE. Foxglove. This stately plant is a biennial, bearing spikes of long tubular flowers. Mixed colors of rose, purple and white. 3 to 4 feet. Late June and July. See picture. **35c each. 3 for \$1.00. 6 for \$1.90.**

ERIGERON SPECIOSUS. Large, handsome aster-like blue flowers, violet tinted with golden yellow centers, during June and July; fine for cutting; grows 2 to 3 feet high. **35c each. 3 for \$1.00. 6 for \$1.90.**

EUPHORBIA POLYCHROMA. This plant grows into a very pretty, formal rounded clump about a foot high. Very attractive foliage. Covered in May and June with yellow flowers. **35c each. 3 for \$1.00. 6 for \$1.90.**

FERNS, Hardy.* Their beautiful foliage should be in every yard. Very fine for shaded locations where other plants will not thrive. Extra heavy large clumps. **40c each. 3 for \$1.15. 6 for \$2.20.**

FILIPENDULA. Meadow Sweet. White flowers borne in graceful feathery plumes. Handsome divided leaves. June and July. 18 to 24 inches. **50c each. 3 for \$1.40. 6 for \$2.70.**

FORGET-ME-NOTS.* See Myosotis, page 29.

FUNKIA CAERULEA. Blue Plantain Lily. Handsome dark green foliage with blue lily-like flowers, borne on drooping spikes. Stands partial shade. Blooms July and August. 18 to 24 inches. **35c each. 3 for \$1.00. 6 for \$1.90.**

FUNKIA SUBCORDATA GRANDIFLORA. White Plantain Lily. Bears large, pure white, lily-shaped flowers in August and September. Very attractive broad glossy dark green leaves. Stands shade. 24 inches. **60c each. 3 for \$1.65. 6 for \$3.00.**

FUNKIA VARIEGATA. Most attractive with its wide leaves of glossy green variegated with white. Blue flowers. Will grow in partial shade. Blooms July and August. 18 to 24 inches. **50c each. 3 for \$1.40. 6 for \$2.70.**

GAILLARDIA GRANDIFLORA. Blanket Flower. A very showy flower in the garden and splendid for cutting. The center is dark red while the petals are crimson and yellow. A profusion of bloom from June to frost. 18 to 24 inches tall. See picture. **35c each. 3 for \$1.00. 6 for \$1.90.**

GAILLARDIA, RUBY. An improvement on the Gaillardia Grandiflora having a much larger proportion of red color, which not only suffuses the center of the flower but carries well out onto the petals. Profuse blooming. 18 to 24 inches. **40c each. 3 for \$1.10. 6 for \$2.10.**

GLOBULARIA.* Globe Daisy. A dwarf, tufted little plant with beautiful lavender flower heads. June to September. Does well in front of a well-drained border and is a brilliant picture in the rock garden. **35c each. 3 for \$1.00. 6 for \$1.90.**

GYPSOPHILA PANICULATA. Baby's Breath. Remarkably numerous starry, single white flowers, borne on thread-like stalks. Very fine for bouquets. 2 to 3 feet. July and August. **35c each. 3 for \$1.00. 6 for \$1.90.**

GYPSOPHILA, BRISTOL FAIRY. A recently introduced double, ever-blooming Baby's Breath. Has larger, whiter flowers than the old Baby's Breath. Blooms from June to October. Lovely for fresh cut flowers and for winter bouquets it dries perfectly and does not discolor. Combines lovely in bouquets of fresh flowers, too. **75c each. 3 for \$2.10. 6 for \$3.90.**

HELENIUM RIVERTON GEM. The flowers, borne in clusters, are colored old gold suffused with bright terra cotta and red. Blooms August to October. 3 to 4 feet. Showy in the garden, fine for cutting. **35c each. 3 for \$1.00. 6 for \$1.90.**

HELIOPSIS SCABRA ZINNIAFLORA. The showy flowers are double, golden yellow in color, and produced during July and August. They closely resemble the Zinnia in form. A desirable cut flower. About 24 inches high. **35c each. 3 for \$1.00. 6 for \$1.90.**

Hibiscus offered in red or pink

HEMEROCALLIS FULVA. Tawny Day Lily or Golden Lily. The flowers are coppery orange, trumpet-shaped and produced on plants about 3 feet tall. Blooms June and July. **35c each. 3 for \$1.00. 6 for \$1.90.**

HEMEROCALLIS, Hyperion. A new plant considered by many to be the finest of the pale yellow day lilies. Flowers of citron yellow color are produced in abundance on sturdy stems near 40 inches tall. Grand for cutting, opening beautifully in water and having a most delightful fragrance. July and August. **75c each. 3 for \$2.15. 6 for \$4.20.**

HEMEROCALLIS KWANSO. A double-flowered variety with large, rich, golden bronze flowers in July and August. **35c each. 3 for \$1.00. 6 for \$1.90.**

Continued bottom page 27

HEMEROCALLIS DR. REGAL. Very handsome, rich orange yellow flowers. Very fragrant and fine for cutting. Late May and June. **35c each. 3 for \$1.00. 6 for \$1.90.**

HEMEROCALLIS FLAVA. Lemon Day Lily. Grows 2 to 3 feet high with long, narrow leaves and produces deep lemon-yellow fragrant flowers from early June until well into July. **35c each. 3 for \$1.00. 6 for \$1.90.**

HEMEROCALLIS, Florham. Trumpet shaped flowers of deep golden yellow with dusky yellow markings. The petals are delightfully frilled. June and July. **35c each. 3 for \$1.00. 6 for \$1.90.**

Digitalis (Foxglove)
Flowers of rose, purple
or white

Gaillardia, Petals of yellow
and crimson center deep red

Beautiful *Gladiolus* — Grand for Cutting

FOR beautiful flowers, available from July until late fall, there are none more dependable or magnificent than the Gladioli. Planted in clumps they are attractive in the garden and as a cut flower they have no peer. By planting at intervals, about one week apart, starting the first part of May and continuing to the middle of June, a succession of bloom may be had from July until late fall. Plant the bulbs in cultivated, well-drained soil about 5 inches deep. They do best in full sun. When cutting 3 or 4 leaves should be left to the plant which will allow the bulb to properly mature. After the first killing frost, take the bulbs up carefully and cut off the stalk about 1 inch from the bulb and allow it to dry about one week. Then pack in shallow boxes and place for the winter in a cool dry cellar where the temperature will not go below freezing. The following varieties are among the most lovely and dependable:

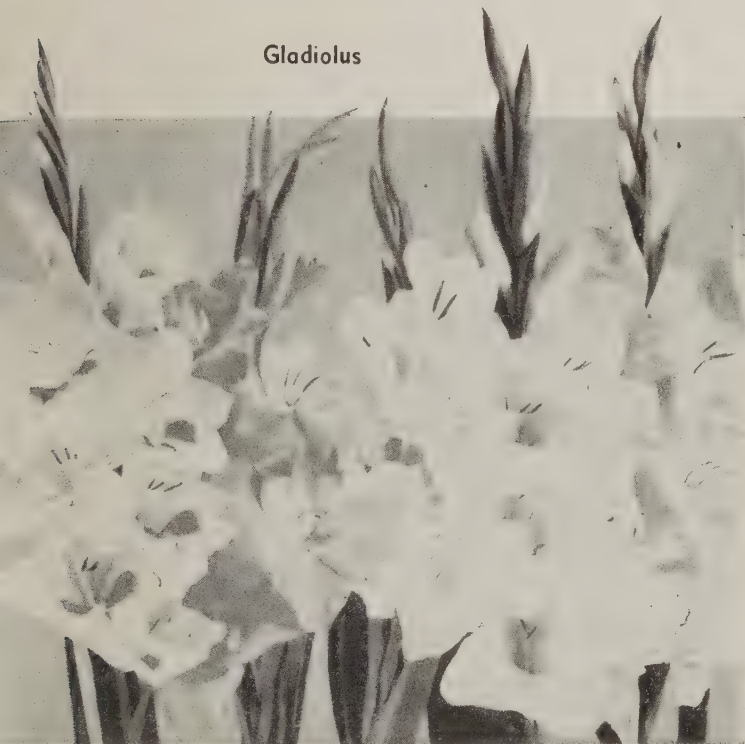

Postage—If wanted by parcel post please add for postage and packing figuring at the average weight of 2 pounds to a dozen Gladioli. Please see postage rates on page 37.

PRICES ON GLADIOLUS 6 all of one variety 50c 12 all of one variety 95c

ROSE HILL BLUE RIBBON GLADIOLI COLLECTION. This assortment of bulbs consists of a wide range of colors and is sure to give you perfect satisfaction.

DR. F. E. BENNETT. A very desirable variety with large, brilliant, fiery red flowers.

Gladiolus

GIANT NYMPH. Giant LaFrance pink, with creamy yellow throat powdered scarlet.

GLORIANA. A strong grower. Flowers rich salmon with creamy blotch. Choice.

GOLDEN DREAM. A very fine, deep golden yellow. A strong, tall grower. A truly beautiful flower.

MAID OF ORLEANS. An excellent Gladiolus of pure white with a cream throat. Has a good straight spike with many perfectly placed florets.

MARY PICKFORD. One of the older varieties but still a general favorite. Flowers are fine creamy white with yellow throat.

MINUET. A delightful large orchid colored flower produced on a strong spike with 7 or 8 large florets in bloom at one time. The finest of its color.

PEACE. A late variety with tall spikes of magnificent bold white blooms, feathered rosy carmine in the throat.

PICARDY. A most sensational flower. The individual florets are extremely large, slightly ruffled and of heavy wax-like substance. Has created a sensation practically every time exhibited. "Picardy" is unquestionably one of the most outstanding sorts. Color: Soft shrimp pink, without flecking. Blotch of light flesh pink. Though gigantic in size, Picardy is anything but coarse.

POLAR ICE. A grand new variety with extra large florets often measuring 6 to 8 inches in diameter and produced on tall, straight stems. It is a pure paper white in color and many of the magnificent flowers open at one time. It is one of the best exhibition sorts.

SHIRLEY TEMPLE. Color cream with richer cream throat. Heavy substance and beautifully ruffled. Large wide open flowers with many open flowers at once on a tall, well balanced spike. One of the finest of the late introductions.

STAR OF BETHLEHEM. Color purest white with a touch of cream on lower petals. Six to eight florets open at one time on a very tall, slender spike. A choice exhibition variety and should be included in every collection.

Hemerocallis Flava
Lemon yellow

HEMEROCALLIS MIDDENDORFFI. Rich orange yellow flowers, very fragrant. Fine for cutting. May and June. 35c each. 3 for \$1.00. 6 for \$1.90.

HEUCHERA SANGUINEA.* Coral Bells. Graceful spikes of coral-red flowers on plants growing 1½ to 2 feet tall. A compact foliage. Excellent for cutting and fine in the rock garden. June to September. 35c each. 3 for \$1.00. 6 for \$1.90.

HIBISCUS, MEEHAN'S MALLOW MARVELS. A magnificent strain of hardy Mallows, which for size and profusion of bloom and richness of coloring are among the most striking and beautiful perennials that grow. Flowers 8 to 10 inches in diameter ranging in color through various shades of red or pink. See cut page 26. 50c each. 3 for \$1.40. 6 for \$2.70.

HOLLYHOCKS. Double-flowering. We offer these beautiful flowers in red, pink, yellow, white, maroon, rose and salmon-pink. They grow 5 to 7 feet tall. Blooms July and August. See picture on page 28. 35c each. 3 for \$1.00. 6 for \$1.90. Extra large 50c each. 3 for \$1.40. 6 for \$2.70.

INCARVILLEA DELAVAYI. Trumpet Flower. Rose pink flowers of trumpet shape are borne in trusses on stiff 18 inch stems. Attractive pinnate foliage. 50c each. 3 for \$1.40. 6 for \$2.70.

DELIGHTFUL *Iris*

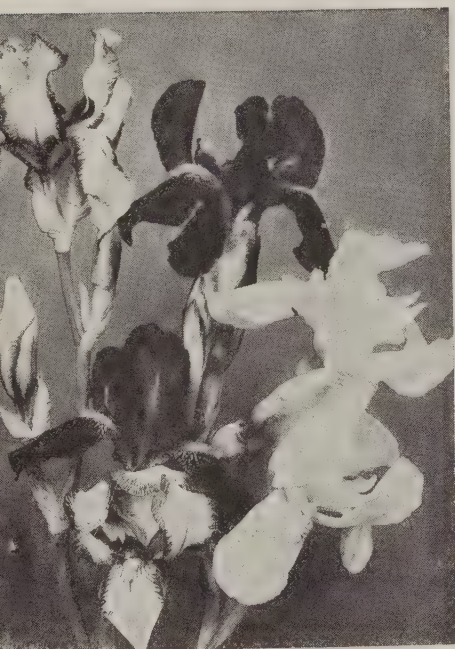

RICH IN COLOR

THE Iris is a magnificent hardy perennial and a general favorite. They have been referred to as the Orchid of the hardy garden. The Iris offers innumerable color combinations of unsurpassed beauty, and the lovely structure of the flower is difficult to describe. It is one of our easiest perennials to grow, requiring a minimum of care and thriving under conditions of soil and weather in which other perennials would fail. In the following carefully selected list a splendid selection is offered.

Oenothera Fraseri
Satiny yellow flowers

German Iris—Assorted
Come in a wide variety of colors

GERMAN IRIS

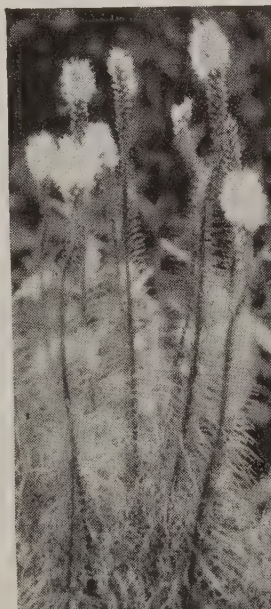

- AMBASSADEUR.** Standards smoky purple, falls velvety purple maroon. A magnificent Iris.
- BLUE BIRD.** Flowers of the brightest blue. The intense blue coloring makes this an unusual type and a very attractive one.
- CHALLENGER.** A very large growing Iris. The standards are dark purple, the falls darkest violet. Very free blooming.
- CINNIBAR.** A splendid large flower, a blending of violet and purple in color. Falls are extremely velvety. Tall growing.
- CORONATION.** A deep, rich, golden yellow. Flowers large of great substance. A fine tall, yellow Iris.
- DON JUAN.** Standards rosy lilac, falls garnet red tinged with purple. Immense flowers reaching over three inches across. Tall growing.
- ELIZABETH ENGELBERG.** The standards are a beautiful blend of pink and lavender, the falls are violet. General effect a mauve pink.
- GLEAM.** A reliable pale blue variety.
- LENT A. WILLIAMSON.** Standards a blue violet, falls a rich purple. Of perfect form. A very fine Iris.
- MADAM CHEREAU.** Standards pure white, edged blue. Falls white with blue penciling. Very popular.
- PALLIDA DALMATICA.** Standards and falls are a lavender-blue shading to silvery blue. Fine for massing.
- SELENE.** A tall silvery white Iris of extra large size and heavy substance. A fine white Iris for this section.
- GEO. J. TRIBOLET.** A magnificent flower, whose red purple colorings has a blackish velvety sheen.
- TROADES.** A delightful blending of the colors rose and crimson. A beautiful flower, striking in effect.

VICTORIA LOUISE. The standards are sulphur yellow and the falls are a rich plum color (maroon and gold). One of the most showy of all Iris.

DWARF IRIS

IRIS PUMILA.* Dwarf Bearded Iris. Purple flowers. Grows about ten inches high, coming into bloom early in April. Suitable for border effect or in front of taller-growing varieties.

Liatis, Kansas
Gay Feather
Rich purple

LIATRIS PYCNOSTACHYA. Kansas Gay Feather. Long, narrow spikes of rich reddish purple flowers. 4 feet high. Striking in the rear of the border. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

LIATRIS SCARIOZA. September Glory. A new variety having a 6 foot stalk solidly covered with reddish purple flowers from top to bottom. The flowers on the stalk all come into bloom at the same time, giving a magnificent effect. 50c each. 3 for \$1.40. 6 for \$2.70.

Double Hollyhocks
Available in a wide variety of colors

Regal Lily
White suffused with pink

MINNEAPOLIS AND SAINT PAUL

LILIUM ELEGANS. A variety growing 18 inches tall with orange-red flowers in profusion. Blooms June and July. Very hardy. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LILIUM REGALE. The Regal Lily. The flowers are white slightly suffused with pink. A beautiful shade of canary yellow at the center and extending part way up to the trumpet. Delightfully fragrant. A single stalk will often have ten to fifteen large blossoms. The finest Lily for Minnesota gardens. 3 feet. Blooms in late June and July. See picture. 5 to 6 inch circumference blooming size. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**. Extra large, 8 to 9 inch, **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

LILIUM TENUIFOLIUM. Coral Lily. Bright scarlet flowers with recurved petals on a slender, dainty plant about 18 inches tall. Blooms in June and July. Very fine. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

Pentstemon
Bright scarlet

LILIUM TIGRINUM. Single Tiger Lily. A popular garden Lily with large, bright orange blossoms marked with dark spots. A robust growing Lily of easy culture. Blooms in June. 3 feet. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LILIUM TIGRINUM FL. PL. Double Tiger Lily. This magnificent Lily is borne in immense clusters on tall stems. The flowers are very large and very double. Color is orange-red spotted with black. Blooms in June. Hardy and strong growing. 3 feet. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LILY OF THE VALLEY.* *Convallaria Majalis.* The lovely, fragrant, white bell-shaped flowers are produced on plants about 10 inches tall. Does well in semi-shade. Blooms May and June. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LINUM PERENNE.* Flax. Dainty, feathery foliage, and sparkling blue single flowers all summer. 18 to 24 inches. A very attractive and showy flower. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LOBELIA CARDINALIS. Cardinal Flower. Grows 2 to 4 feet high, producing vivid crimson flowers on long spikes in August and September. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LOBELIA SIPHILITICA. Great Blue Lobelia. The flowers which are blue streaked with white are grown on long spikes. Blooms June and July and often in September. Plant is about 2 feet tall. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LYCHNIS CHALCEDONIA. *Campion.* Brilliant vermillion-scarlet flowers in June and July. 2 to 3 feet high. A striking color in the garden. See cut. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LUPINUS. Lupine. Among the most beautiful of all hardy flowers. Colors are both rich and delicate shades of blue, mauve, pink, etc., and are borne on long spikes that for size and beauty rival giant Snapdragons. The added novelty of being sweet scented makes these one of the best garden plants we have ever distributed. Blooms in June. 3 to 4 feet high. We offer the following colors: Blue, pink and white. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LUPINUS. New Russell Lupines. Russell's Lupines bear enormous, well-rounded, long, symmetrical flower-spikes, often 3 ft. or more in length, each spike a mass of gorgeous color. The colors include shades never before seen in Lupines. Individual flowers are above average size and are very closely set on the stem. All the flowers on a spike open at one time and they keep well when cut. Blue, rose and white. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

LYSIMACHI NUMMULARIA.* Moneywort. This is an excellent carpeting plant to grow in semi-shaded or moist places. Crawls delightfully over rocks in the rocky and quickly covers bare, unsightly spots. Forms a dense carpet and bears bright, small yellow flowers in June. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

LYTHRUM ROSEUM. Loosestrife. The rose-colored spikes about two and one-half feet tall are very showy. Blooms July and August. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

MONARDA DIDYMA. Oswego Tea. An attractive plant for the perennial border. Brilliant crimson-scarlet flowers in close heads on plants 2 to 3 feet high, June through August. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

MYOSOTIS.* Forget-me-not. The charming little blue flowers, produced freely, have long been a favorite. Will thrive best in a moist, semi-shaded location. Blooms off and on all summer. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

NEPETA MUSSINI.* The silvery-grey foliage is aromatic. The hundreds of small flowers are lavender-blue. An excellent plant for edging or in the rock garden. 12 to 18 inches. May to August. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

OENOTHERA FRASERI. Evening Primrose or Sundrops. The satiny Poppy shaped yellow flowers are borne on 12 inch stems. Shiny, clean looking leaves. Blooms June and July. Does well in shade. See picture page 28. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

PAPAVER NUDICAULE.* Iceland Poppy. Charming cup-shaped flowers on stems one foot high. Orange-yellow or white in color. A plant of neat habit with fern-like foliage. Blooms June through September. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

PAPAVER ORIENTALE. Oriental Poppy. The flowers of brilliant crimson are about six inches across and produced on plants about 2½ feet tall. Blooms in June. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

PAPAVER ORIENTALE. Mrs. Perry. Orange-apricot in color. Blooms in June. A very fine variety. **50c** each. 3 for **\$1.40**. 6 for **\$2.70**.

PENTSTEMON BARBATUS TORREYI. Beard Tongue. Bright scarlet flowers in spikes about two feet long from June to August. A graceful decorative plant growing about 3 feet tall. See cut. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

PENTSTEMON. Blue Gem. A very dark blue flowered Pentstemon. Grows 18 inches tall. Very free blooming in July and August and good for cutting. **35c** each. 3 for **\$1.00**. 6 for **\$1.90**.

The tall plant is
Beacon Phlox, a
brilliant cherry red

Lychnis Chalcedonia
Brilliant vermillion scarlet

Peonies

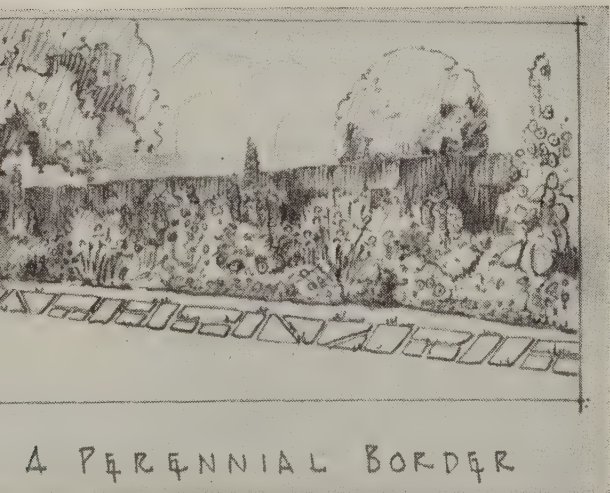

Rival of the Rose

CARE should be taken in planting the Peony, to set the roots with the eyes about 1 to 2 inches below the surface of the soil. Planting too deep will prevent blooming though the plant may otherwise seem healthy. Peonies do best in a rich soil. Peonies are gross feeders. Thoroughly decomposed cow manure or commercial fertilizer should be used but care must be taken not to have the fertilizer come into direct contact with the roots.

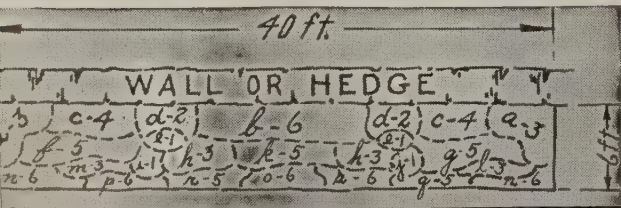

We offer strong 3- to 5-eye roots at prices quoted. Also 6- to 8-eye, blooming size roots at double the price quoted after each variety.

- CHERRY HILL.** A charming soft velvety, garnet red. Blooms very early on a tall plant with erect stems. \$1.00 each.
- COURONNE D'OR.** Pure white with a circle of gold stamens. A very fragrant semi-rose type. Late mid-season bloom. The cut flowers keep very well. 75c each.
- FELIX CROUSSE.** The bomb-shaped flower is a rich, brilliant ruby red. The flower is large and comes into bloom in late mid-season. \$1.00 each.
- FESTIVA MAXIMA.** Early white with inner petals slightly tipped carmine. Free-blooming and fragrant. 75c each.
- FRANCES WILLARD.** Very large, white delicately shading pink. Pleasantly perfumed. Strong growing and lasting as a cut flower. Late mid-season. \$1.25 each.
- GROVER CLEVELAND.** Dark crimson. A late rose-type, strong, vigorous grower with large, full flowers. \$1.50 each.
- KARL ROSENFELD.** Flower crimson, large, compact semi-rose type. Mid-season. Very strong, tall and free blooming. Slightly fragrant. \$1.00 each.
- LADY ALEXANDER DUFF.** Lovely soft pink nicely formed flower of large size. Fragrant. Very free flowering tall and robust. \$1.50 each.
- L'ESPERANCE or EDULIS SUPERBA.** Bright pink with slight violet shadings at base of petals. Large crown type. Early. Fragrant. Strong and upright in habit. A very free bloomer. 75c each.
- LIVINGSTONE.** Color a delightful pink with silver-tipped petals. Late dependable bloomer. Strong, erect growing. \$1.00 each.
- LOUIS VAN HOUTTE.** Fine violet-red bloom of dazzling effect. Very fine, shapely bloom. Medium to large flower. Mid-season. 75c each.
- MARTHA BULLOCK.** A mammoth flower of deep rose pink, shading lighter, strongly fragrant. Stems stiff and strong. Late blooming. \$1.25 each.

- MIKADO.** Shaped like a gigantic poppy. The flowers are velvety crimson with a gold center. Generally in bloom for Decoration day. The plant blooms freely and is a distinct favorite. \$1.25 each
- MONS. JULES ELIE.** Color a beautiful pure pink. This is one of the finest peonies. Blooms early mid-season. Flowers shaped like a giant chrysanthemum. \$1.00 each.
- MONS. MARTIN CAHUZAC.** If you wish the darkest red Peony grown, order this one. Flowers medium to large, semi-rose type, with stamens. Color a deep maroon-red. It often comes semi-double until plants are well established. The plant is medium tall with strong sturdy upright stems. It comes into bloom early midseason. \$1.50 each.
- PHOEBE CARY.** A very late pale old-rose pink, darkening toward the center. The plant is very tall with strong stems and good light green foliage. The flower is rose type, slightly cup-shaped, with large, broad petals. A desirable late variety that always opens well. \$1.00 each.
- REINE HORTENSE.** Lovely delicate hydrangea pink. Deliciously fragrant. Large flower, on strong, erect stems. Blooms mid-season. \$1.00 each.
- SARAH BERNHART.** It is one of the strongest growers. Flowers are exceptionally large, apple blossom pink with each petal silver tipped. This flower must be seen to be fully appreciated. Fragrant. \$1.00 each.
- SOLANGE.** Cream with soft orange-salmon-pink undertone. Perfect rose type. Blooms late—strong growing. Rates very high. \$1.25 each.
- SOUVENIR DE LOUIS BIGOT.** Salmon-pink. Color a brilliant rose, slightly tinted carmine at the base, turning to a salmon-pink. Resembles Walter Faxon in color but stands up much better in the field. A real treasure. \$1.00 each.
- WALTER FAXON.** Bright rose, shaded salmon and deeper rose at the base. Blooms mid-season on a medium tall vigorous plant. \$1.00 each.

Hardy Phlox

GLORY OF THE GARDEN IN MIDSUMMER

These beautiful hardy plants are the most colorful and attractive of all during late summer and early fall. Blooming most profusely, their brilliant colors admired by all, they make a wonderful display in the flower border. The following varieties have been selected for their strong growth, clear colors and profusion of bloom.

The Phlox we offer are all strong field-grown, two-year-old plants, sure to bloom the first summer.

All Phlox 40c each, 3 for \$1.10, 6 for \$2.10.

AFRICA. A dazzling deep scarlet variety. Well shaped, large flowers produced on strong stems. One of the best deep red varieties which does not mildew. A gem for the flower border.

B'COMTE. Large panicles of rich, satiny purple flowers. Exceedingly brilliant, tall growing. Blooms mid-season to late.

BEACON. Brilliant cherry-red of arresting beauty, grows 3 feet high. One of the best in this color.

BRIDESMAID. A lovely white with crimson eye. A tall-growing variety. Blooms mid-season.

COUNT ZEPPELIN. Pure white flowers with a vermillion red eye. There is no fading or suffusing of color. A striking, clean looking Phlox. Flowers profusely and is strong growing. About thirty inches tall.

DAILY SKETCH. A very fine, distinctive, new Phlox. Flowers pink with a vivid crimson eye. The flowers are unusually large and the plant vigorous and tall growing. We consider this the finest new variety we have tested.

DIVARICATA. Large fragrant lavender flowers produced in May on stems 10 to 12 inches high.

E. I. FARRINGTON. Delightful salmon-pink shading to a soft pink. Of vigorous growth and erect habit. Good for cutting.

ENCHANTRESS. Bright salmon pink with dark eye, resembling Elizabeth Campbell in color but far superior as it is a stronger grower with rich, glossy foliage. See cut.

ETHEL PRITCHARD. Very lovely orchid colored variety. During cloudy weather the color closely resembles that of Phlox Divaricata. It flowers freely and grows strong. Most attractive when planted among white or yellow flowers. Grows fairly tall.

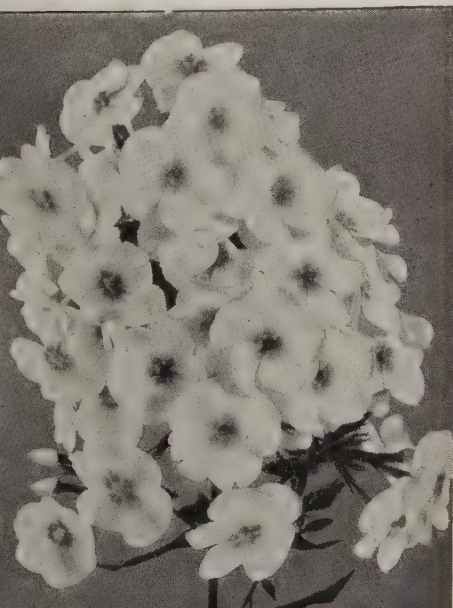

FIREBRAND. A new bright orange-scarlet, almost vermillion. A very profuse bloomer throughout the entire season. Medium height.

FRAULEIN VON LASSBURG. A splendid pure white, tall, mid-season variety. Very free-flowering.

GEORGE STIPP. A new Phlox of outstanding worth. Glowing deep salmon with a lighter eye. Color does not fade.

LEO SCHLAGETER. New brilliant scarlet blooms. Striking in appearance. A decided orange cast adds to their beauty. Blooms early. Grows three feet tall.

Phlox Enchantress
Bright salmon pink with dark eye

Hardy Phlox continued—

MISS VERBOOM. This, in fact, is the rose-magenta form of Miss Lingard. Habit and foliage are the same; flowers just as early in June Splendid when planted next to Poppy, Mrs. Perry and Hemerocallis Flava.

MRS. CHARLES DOOR. A lovely rose-lavender. Tall growing. The finest of all lavender-phlox.

MRS. JENKINS. A very fine, free flowering midseason white, of medium height.

PROFESSOR SCHLEMAN. A large flowered, strong growing, lovely pink variety of compelling beauty. Blooms early mid-season.

SALMON BEAUTY. Rich salmon-pink, with white eye. There are many Phlox of this general color, but when all is said and done, we believe Salmon Beauty is one of the first on the list in this shade.

SAN ANTONIO. Brilliant flower heads of carmine, with a shading of plum red. As rich in color as one could imagine. Does not discolor in the hottest sun. Planted with white Phlox, the resulting display is gorgeous.

Platycodon (Balloon Flower)
Flowers deep blue

SIR EDWIN LANDSEER. Very bright crimson. Large trusses and vigorous, healthy growth. Its strong color is most attractive.

WIDAR. Most attractive violet with a clear white eye. A Phlox of medium height and a very satisfactory grower.

Dwarf Phlox

AMOENA.* Fine for carpeting the ground in the rockery or as a border. Forms a sheet 4 inches high of bright pink flowers in the spring.

SUBULATA * Moss Pink. Masses of pink bloom in early spring. Pretty moss-like evergreen foliage. A fine plant for edging the border and for use in the rockery. Plant in full sun.

SUBULATA.* Vivid. Bright pink with dark pink eye. Blooms in early spring. We consider this the choicest of the dwarf varieties of Phlox.

PHYSOSTEGIA VIRGINICA. False Dragon-head. Long spikes of delicate pink flowers in July and August. Plant grows about three feet. 35c each. 3 for \$1.00. 6 for \$1.90.

PHYSOSTEGIA. Vivid. A new dwarf variety about 20 inches tall. Flowers are a deep pink and bloom in September. Very good cut flower. 35c each. 3 for \$1.00. 6 for \$1.90.

PLATYCODON GRANDIFLORUM. Balloon Flower. Large bell-shaped flowers of a deep shade of blue. Blooms July until late September. 2 to 3 feet high. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

PLATYCODON GRANDIFLORUM ALBUM. Similar to the above described plant excepting in color, which is white. 35c each. 3 for \$1.00. 6 for \$1.90.

POLEMONIUM COERULEUM. Jacob's Ladder. Erect stems of sky-blue flowers. Graceful pinnate leaves, the flowers borne in loose heads. 1½ feet. June and July. Suitable for rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

PYRETHRUM HYBRIDUM.

Persian Daisy. The daisy-like flowers are both single and double in shades of white, pink and red to deep crimson. The blossoms are produced on long, graceful stems, making it a very desirable cut flower. Blooms June and July. 24 inches tall. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

PYRETHRUM. Kelway's Dark Red. This is an improved form of the above described Pyrethrum. The flowers are dark red with a distinctive yellow center. 40c each. 3 for \$1.10. 6 for \$2.10.

Pyrethrum, Giant Daisy,
white with yellow center

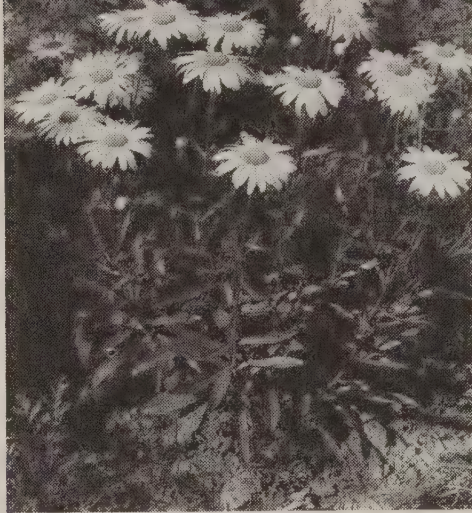

Physostegia. False Dragonhead
spikes of pink

Rudbeckia, Cone Flower
Petals reddish purple, cone of brown

Shasta Daisy, Alaska
White with yellow center

Veronica (Speedwell)
Spikes of violet blue

PYRETHRUM ULIGINOSUM. Giant Daisy. Clusters of large daisy-like white flowers with yellow centers, blooms in late summer and fall. 4 feet tall. See picture. 35c each. 3 for \$1.00. 6 for \$1.90.

RANUNCULUS REPENS. Buttercup. A pretty double-flowering, bright yellow buttercup. Masses of blossoms during May and June. 1 foot high. The luxurious foliage makes a fine around cover. Does well both in sunny and shady locations. 35c each. 3 for \$1.00. 6 for \$1.90.

RIBBON GRASS.* Phalaris Arundinacea Variegata. Very ornamental, green leaves striped lengthwise with creamy white. Grows about three feet tall. 35c each. 3 for \$1.00. 6 for \$1.90.

RUDEBECKIA LACINIATA. Golden Glow. Produces masses of double dahlia-like golden yellow flowers from July to September. Strong grower, 5 to 6 feet. 35c each. 3 for \$1.00. 6 for \$1.90.

RUDEBECKIA PURPUREA. Purple Cone Flower. Blossoms about four inches across of a peculiar reddish-purple, with a remarkably large cone-shaped center of brown. July and August. 3 feet high. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM ALBUM.* White flowers on a dwarf spreading plant with thick, waxy, round foliage. Fine for rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM ACRE.* Golden Moss. A dwarf plant with a profusion of bright yellow flowers from June to July. 3 to 4 inches. Fine for edging the border or for rock gardens. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM BRILLIANT.* Stonecrop. Plant growing about eighteen inches high with light green glaucous foliage, large heads of showy bright rose colored flowers in late autumn. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM GLAUCUM.* A prostrate plant with blue green foliage. Small white flowers. Very good rock plant. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM. Hen and Chickens. One of the dwarf, old favorite varieties. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM LYDICUM.* The gray green foliage turns red in winter. White flowers, plant prostrate. Excellent for rock garden. 35c each. 3 for \$1.00. 6 for \$1.90.

SEDUM STOLONIFERA.* Running Stonecrop. This variety is of creeping habit. Dull rose colored flowers. The leaves turn a beautiful crimson in the fall. 4 to 5 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

SHASTA DAISY, ALASKA. Large white flowers with yellow center produced profusely nearly all summer. 12 to 18 inches. Excellent for cutting. A general favorite. See cut top of page. 35c each. 3 for \$1.00. 6 for \$1.90.

SHASTA DAISY, WHITE SWAN. This is a very fine, double flowered variety of Shasta Daisy. Its blooms are somewhat larger than Pyrethrums, pure white and fully double. Very attractive in the garden and excellent for cutting, having long stems. Also known as the Double White Memorial Day Daisy. 50c each. 3 for \$1.40. 6 for \$2.70.

STATICE LATIFOLIA. Sea Lavender or Lavender Baby's Breath. Myriads of lavender colored tiny flowers resembling the general form of the Baby's Breath. Blooms August and September. Leathery, dark green leaves close to ground. Showy in the garden and splendid as a cut flower. May be dried for winter use. 50c each. 3 for \$1.40. 6 for \$2.70.

THERMOPSIS. Caroliniana. A lovely plant whose general appearance is that of a yellow lupine. Grows about 2 feet high. Blooms in June and July with 6 to 12 inch racemes of yellow, pea-like flowers. Rich green foliage. 50c each. 3 for \$1.40. 6 for \$2.70.

TROLLIUS. Gold Quelle. A glorified Buttercup, leaves and flowers resembles the Buttercup. Large, orange-yellow blossoms. 18 to 24 inches. May to August. Grows well in a moist, semi-shaded position. 50c each. 3 for \$1.40. 6 for \$2.70.

TUNICA SAXIFRAGA.* Coat Flower. Small pink flowers in the greatest profusion most all summer. 6 inches high. Fine for rockery. 35c each. 3 for \$1.00. 6 for \$1.90.

VALERIANA OFFICINALIS. Hardy Garden Heliotrope. Showy heads of rose-tinted white flowers with heliotrope fragrance. 3 to 4 feet. June and July. Loves moisture. 35c each. 3 for \$1.00. 6 for \$1.90.

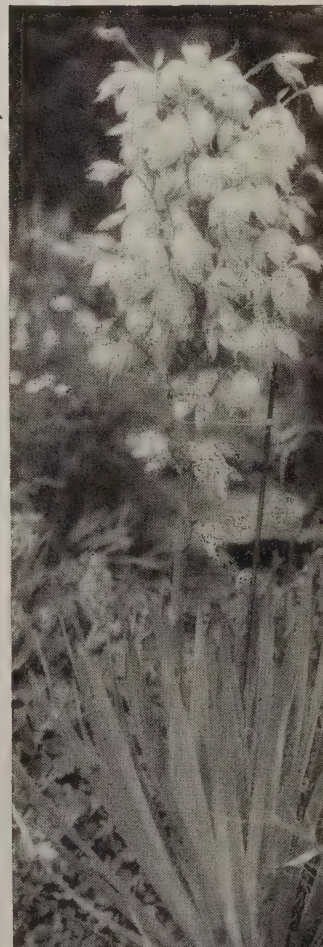

VERONICA RUPESTRIS.* A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good around cover for shrub borders. 35c each. 3 for \$1.00. 6 for \$1.90.

VERONICA SPICATA.* Speedwell. Spikes of violet-blue flowers in June and July. Gives splendid color to the border. See cut. 18 inches. 35c each. 3 for \$1.00. 6 for \$1.90.

VINCA MINOR.* Trailing Myrtle. A trailing plant, splendid for covering ground under trees and shrubs. Delightfully softens the effects of the rocks in the rockery. Flowers are blue resembling a small violet. 35c each. 3 for \$1.00. 6 for \$1.90.

YUCCA FILAMENTOSA. Adam's Needle. The creamy white flowers are bell-shaped and drooping. Produced on tall stems up to 4 or 5 feet. The foliage is sword-like and woody. July. See cut. 35c each. 3 for \$1.00. 6 for \$1.90.

Yucca, Adam's Needle
Milky white

Viola Cornuta—Tufted Pansies

The flowers resemble the common Pansy in form, though not quite so large. Of very free flowering habit, they bloom from April until October and constitute a most colorful addition to the garden. The following varieties are among the very best:

25c each. 3 for 70c. 6 for \$1.35

ARKWRIGHT RUBY. Wonderful large rounded flowers of ruby crimson with terra cotta and darker markings. Fragrant.

JERSEY GEM.* Pure, rich bluish-purple, slightly perfumed flowers. A most attractive variety.

LUTEA.* The flowers are a bright golden yellow, contrasting beautifully with the darker shades of other varieties.

PERFECTION. Light blue flowers in abundance all summer, very lovely planted with the yellow sort.

SCOTCH BORDER.* The flowers are a perfect riot of color, combining practically every shade.

Delicious Fruits

THE thrifty housewife has long known the savings made when fruits are grown at home. There is something about home-grown fruit that is different. It tastes better than any other. There is no investment that can be made that will bring as satisfactory returns as the purchase of fruit trees and berry bushes. Fruit trees are attractive when in bloom as well as when loaded with luscious fruit. Apples are a healthy fruit and may be had from August until Spring if a proper selection of varieties is made.

Superior Plums

POSTAGE—We recommend shipping fruit trees by freight or express. The 3 to 4 foot size and the 4 to 5 foot size may be shipped by parcel post, however. Figure weight at 3 pounds each for the 3 to 4 foot and 4 pounds each for the 4 to 5 foot. Please refer to parcel post rate table on page 37 to figure amount of postage to include with order.

Small fruits such as grapes, strawberries, currants, etc., can be shipped parcel post if desired. Please note weights given under each item.

Hardy Apples

Prices on Apples and Crabs Except Where Priced

4 to 5 feet.....	\$1.00 each; \$10.00 dozen
5 to 6 feet.....	1.50 each; 15.00 dozen
6 to 7 feet, 1 to 1 1/4 in. diam., extra fine for early bearing.....	2.00 each; 20.00 dozen

ANOKA. A very early and heavy bearer. A medium sized tree, with fruit in quality equal to the Duchess. Early August.

BEACON. Originated at the University Plant Breeding Farm at Excelsior, Minn. A fine new apple hardy and of high quality. Ripens mid-August about the same season as Duchess. Will keep three or four weeks after picking. Late August.

DUCHESS. An apple of large size and beautifully colored red. Bears when young and abundantly. Excellent quality. Ripens very early. Mid August.

ERICKSON. The fruit is very large and deep red in color. Ripens early, about the same time as Duchess. Fine for cooking or eating.

FIRESIDE. This new University of Minnesota product is especially noted for its flavor, which is claimed by some to surpass Delicious. Fireside is hardy and productive here. A long keeping winter apple. The large fruit is crisp, firm and juicy.
4 to 5 feet.....\$1.50 ea.; \$15.00 per dozen
5 to 6 feet.....2.00 ea.; 20.00 per dozen

HARALSON. Originated by the Minnesota Fruit Breeding Farm. Solid red color of fine quality for cooking and eating. Tree bears when young. An all-winter keeper. One of the best winter apples for home use or market.

MINJON. A very hardy new variety produced by the University of Minnesota. Has very good quality both for eating and cooking. Ripens in September and keeps until mid-December. Of medium size, bright all red color. Resembles Jonathan.
4 to 5 feet.....\$1.50 ea.; \$15.00 per dozen
5 to 6 feet.....2.00 ea.; 20.00 per dozen

NORTHWEST GREENING. Fruit is green, turning yellow as it matures. Firm and of large size. Good winter keeper. Fine cooking apple for late winter and spring.

PATTEN'S GREENING. Fruit large, green; flesh white, excellent for cooking and eating during October and November.

PRAIRIE SPY. This tree was originated and recently named by the Minnesota Fruit Breeding Farm. The fruit is carmine red, keeps all winter, is the finest flavored winter apple grown. The tree is hardy, productive and a good grower.

RHODA. A hardy long keeping red winter apple of good size and fine quality. A tree worthy of being grown in every orchard.

WEALTHY. Fruit of the best quality. Bears when very young. A good market variety. The favorite apple for this section. September to December.

YELLOW TRANSPARENT. A medium sized summer apple with an attractive lemon yellow waxen like skin. Flesh crisp and of good quality.

Hardy Crab Apples

See Prices Under Apples Except for Flame

Prairie Spy Apple

DOLGO. A handsome tree with light green foliage and attractive red fruit. Fruit jells easily, a red jelly of excellent flavor. Very vigorous. The most dependable crab. Late August.

FLAME. (Minnesota No. 635.) This is primarily an ornamental crab but the fruits, though small, make an excellent red jelly. The flowers are similar to other crabs but are borne in great profusion. The tree is compact in growth and of medium size, suitable for lawn planting. The fruits are a brilliant red and hang tenaciously to the trees until mid-winter, months after the leaves have fallen. The effect is a mass of flaming red color from August until November. Trees 5 to 6 feet high often have 250 or more brilliant red colored crabs. The fruit during December and January is attractive to winter birds. As an ornamental tree in the fall it rivals all other trees with its attractive bright red fruit. Among the ornamental trees in our nursery last fall this ornamental crab attracted by far the most attention.
3 to 4 ft. high.....\$1.25 5 to 6 ft. high.....\$2.50
4 to 5 ft. ".....2.00

HOPA CRAB. See page 9.

VIRGINIA. Strong-growing, free from blight. Red fruit of medium size. Good for eating, cooking or jelly. Early September.

WHITNEY. Very hardy and productive. Fruit red in color. Flesh of fine quality. Fine for eating or for sweet pickles. Early August.

Hardy Minnesota Plums

- 4 to 5 feet.....\$1.50 each, \$15.00 per dozen
5 to 6 feet.....2.00 each, 20.00 per dozen

FIEBING. Introduced by Mr. Chas. Haralson, Excelsior, Minn. It is hardy and of vigorous growth, producing a regular crop of unusually large, fine quality red plums. Should be included in every home and commercial orchard. Late September.

HANSKA. Fruit bright red and of a delicious apricot flavor. Fine to eat raw and delicious when cooked. Very hardy and an early bearing variety. Valuable also for pollenizing other varieties.

LA CRESCENT. The apricot flavored plum. Tree vigorous and productive. Fruit medium sized. Clear yellow, tender, fine grained flesh. Semi-free stone, juicy and sweet. Early August.

MONITOR. Tree vigorous and productive. Fruit large, almost round, color dark red, quality good. Late August.

SUPERIOR. A new, deep red plum of high quality. Fruit is large with small pit and ripens early. We recommend this new variety. Mid August.

UNDERWOOD. Fruit attractive red with fairly firm, juicy flesh, small pit, clingstone, hangs well and ripens over a long period. A splendid variety. Early August.

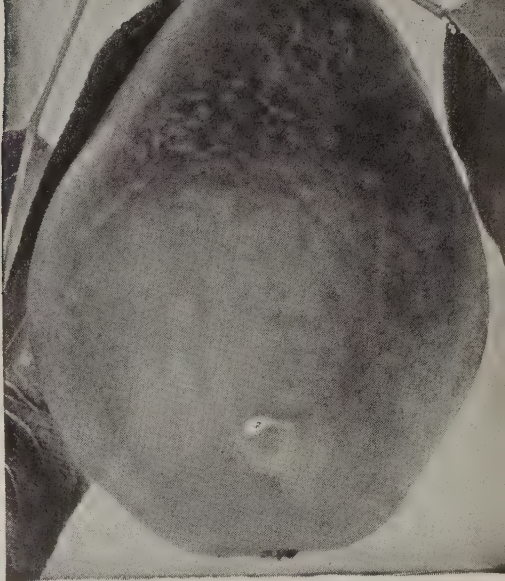

Pears

No one need hesitate to plant Pear trees in Minnesota. All who saw the Minnesota State Pear Exhibit at the Minnesota State Fair were convinced that Pears of good size and fine flavor can be grown in abundance in Minnesota. The following varieties are dependable.

MENDEL PEAR. Originated at New Ulm, Minnesota. Fruit is of good size, about the same as Bartlett, juicy and of fine quality. Early October.
3 to 4 ft.....\$1.00 each; \$10.00 per dozen
4 to 5 ft.....1.50 each; 15.00 per dozen
5 to 6 ft.....2.00 each; 20.00 per dozen

PARKER. (Minnesota No. 1.) Originated by the Minnesota State Fruit Breeding Farm. This is a good cooking and eating pear. The tree is a large, vigorous, free-growing type. Fruit medium in size, flesh tender. Mid September. See picture.
3 to 4 ft.....\$1.00 each; \$10.00 per dozen
4 to 5 ft.....1.50 each; 15.00 per dozen
5 to 6 ft.....2.00 each; 20.00 per dozen

Beta Grape

Parker Pear (Minnesota No. 1)

Hardy Apricot

Hardy apricots can now be grown in Minnesota. This brings a most desirable fruit to the Northwest. These new apricots have proven exceptionally hardy and very drought resistant producing heavy crops even in very dry years.

- 3 to 4 ft., each.....\$2.00
4 to 5 ft., each.....3.00

Cherries

EARLY RICHMOND. Red, acid, excellent for cooking or drying. Early July.
4 to 5 ft.....\$1.50
5 to 6 ft.....2.00

OKA CHERRY. Immensely productive, bearing next year after setting into orchard. Heavy, annual bearer of large, deliciously flavored fruit, having rich purple-red skin, flesh and juice unexcelled for canning, jam or jelly. Tree is very hardy; is of dwarf habit, making it easy to gather the fruit. Because of its early bearing and excellent fruit it is certainly a favorite, and we recommend it very highly. Early August.
3 to 4 ft.....\$1.00 each; \$10.00 per dozen
4 to 5 ft.....1.50 each; 15.00 per dozen
5 to 6 ft.....2.00 each; 20.00 per dozen

Grapes

GRAPES NEEDING NO WINTER PROTECTION

Parcel Post Weight: ¾ Pound Each

ALPHA. Fruit is larger than Beta and of good quality. Perfectly hardy without covering. 2 year.....\$0.50 each; \$5.00 per dozen
BETA. The Beta is perfectly hardy, a rapid grower, early bearer, good sized fruit, bunches often weighing one-half to one pound each, and of fair quality. Well adapted for covering porches, fences, etc., or will do well planted out by itself. A fine grape for jelly or grape juice. See picture.
2 year.....\$0.50 each; \$5.00 per dozen

GRAPES HARDY WITH WINTER PROTECTION

2 year.....\$0.50 each; \$5.00 per dozen
AGAWAM. Dark red, bunch and berries very large.
CAMPBELL'S EARLY. Round fruit, flesh rather firm but tender; quality rich and sweet.
CONCORD. A well-known black grape, medium size, early and of good quality.
MOORE'S EARLY. Black, earlier, larger and better quality than Concord, but not quite as productive.
POCKLINGTON. White, bunch and berries large.

Currants

Parcel Post Weight: 2 Pounds Each

2 yr. No. 1.....\$0.55 ea; 3 for \$1.50; \$5.00 per dozen
Extra Heavy Bearing Size......75 ea; 3 for 2.00; 7.50 per dozen
RED LAKE. A new red currant originatd at the Minnesota Plant Breeding Farm. It is exceptionally large and of fine flavor. This variety has been tested for several years and has proven to be the largest and finest currant for both home and market use.
STEWART'S SEEDLING. Beautiful, light red fruit of large size and good quality. Bush a strong and healthy grower. Produces large quantities of fruit; excellent flavor. A profitable variety for market purpose.
WHITE GRAPE. The best white. Large, mild flavored, good for table.

Strawberries

ALL varieties except Bergundy offered below have perfect flowers and will bear fruit if planted alone.

Parcel Post Weight: 3 Pounds Per 100

EVERBEARING

GEM. The berries are large, bright red and roundish in shape. Of good flavor and quality. It is a good market sort as the berries are firm and handle well without injury. Unlike most everbearers, this variety is a good plant maker.

25 for.....	\$1.50
50 for.....	2.50
100 for.....	4.00

WAYZATA. This variety has proven far superior to all other strawberries at our nursery. The fruit is large, beautifully colored and the flavor is positively delicious. The plants are large, vigorous, healthy and splendid producers. Whether for home or market purposes, Wayzata is now commonly accepted as the best everbearing strawberry known.

25 for.....	\$2.00
50 for.....	3.50
100 for.....	6.00

JUNEBEARING STRAWBERRIES

BERGUNDY. A new discovery of the University of Minnesota Fruit Breeding Farm. The fruit is attractive, glossy, red, fine quality and highly productive. The berries are red right through, retaining their color well when canned. It is also one of the best for shipping and for canning. Fruits late, thereby extending the strawberry season. The flowers are imperfect and should be planted adjacent to some perfect flowered variety such as the Catskill.

25 for.....	\$1.00
50 for.....	1.75
100 for.....	3.00

CATSKILL. A heavy producing variety, berries large, of rich flavor and aroma. Bright red coloring. Plants sturdy and drought resisting. Fine for canning and ships well. Midseason. A good pollenizer for Bergundy.

25 for.....	\$1.00
50 for.....	1.50
100 for.....	2.50

PREMIER. Early. It starts fruiting nearly a week earlier than Dunlap and maintains a heavy production for a long period. The berries are bright red, very firm, solid inside and maintain their size well throughout the season.

25 for.....	\$0.75
50 for.....	1.25
100 for.....	2.00

SENATOR DUNLAP. This is the leading strawberry throughout the United States. It does well everywhere and produces enormous crops of fruit regularly. A first-class shipper and retains its brightness long after being picked. The best market berry.

25 for.....	\$0.75
50 for.....	1.25
100 for.....	2.00

Blackberries

Parcel Post Weight: 1/4 Pound Each

ANCIENT BRITTON. A popular market variety. The fruit is of fine quality, produced in great abundance.

\$2.75 per dozen; \$4.00 per 25; \$7.90 per 50.

Gooseberries

Parcel Post Weight: 2 Pounds Each

2 yr. ea. \$0.75	3 for \$2.10	6 for \$3.90	12 for \$7.20
3 yr. ea. 1.00	3 for 2.85	6 for 5.40	12 for 10.00

CARRIE. The fruit is a transparent green, turning to a rich wine or deep maroon color when fully ripe. One of the heaviest producers.

COMO. Vigorous, productive, hardy, not susceptible to disease. Fruit green when ripe. One of the best for Minnesota. A University of Minnesota introduction.

Red Raspberries

CHIEF. The plant is very vigorous, stocky, very hardy. Season early, one week ahead of Latham. Fruit attractive bright red, firm, quality very good. This variety in some sections has outyielded Latham.

1st class plants: \$1.75 per dozen; \$2.50 per 25; \$4.50 per 50; \$8.25 per 100.

Parcel post weight: 1/4 lb. each.

Extra heavy selected plants for home gardens: \$2.50 per dozen; \$3.50 per 25; \$5.75 per 50; \$11.00 per 100.

Parcel post weight: 1/3 pound each.

LATHAM. Introduced by the Minnesota Fruit Breeding Station. It is by far the most popular variety grown, both for market and the home garden. The bush is vigorous and hardy without winter protection; bears a heavy crop of extra large fruit of the best quality. The largest and best variety for canning.

1st class plants: \$1.75 per dozen; \$2.50 per 25; \$4.50 per 50; \$8.25 per 100.

Parcel post weight: 1/4 lb. each.

Extra heavy selected plants for home gardens: \$2.50 per dozen; \$3.50 per 25; \$5.75 per 50; \$11.00 per 100.

Parcel post weight: 1/3 pound each.

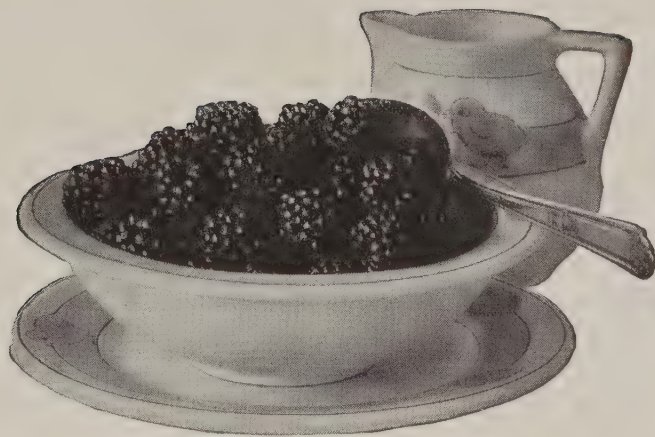

Black Raspberries

CUMBERLAND. A late fruiting black raspberry. Berries large and of fine flavor.

\$2.00 per dozen

Chief Raspberry

Asparagus

Parcel Post Weight: 2 pounds Per Dozen

WASHINGTON. Rust resistant; vigorous grower. Of very fine quality.

Per dozen.....	\$0.75
Per 25.....	1.40

Rhubarb or Pieplant

Parcel Post Weight: 2 Pounds Each

McDONALD. A strong growing plant having heavy brittle leaf-stalks. The red skin colors the sauce a rich pink color. Very productive and hardy for this section. Far superior to the common sorts.

Each.....	\$0.70
Per 3.....	2.00
Extra large roots, each.....	1.00
3 for.....	2.50

Spraying Materials

SPRAYERS AND DUSTERS

Because of war restrictions, at the time this catalog went to press we did not know what types, if any, of sprayers and dusters we would be able to offer in 1944. If we are able to obtain them, we will carry in stock an inexpensive type of each.

BLACK LEAF 40

A highly recommended spray to kill plant lice and other sucking insects which cause the leaves to lose their color and curl up. Kills by coming into contact with the body of the insect. Directions on bottle.

1-oz. bottle.....\$0.35

DRY LIME SULPHUR

Dissolved in water it is used as a dormant spray against San Jose and Oyster Shell scale and as a summer spray against pine leaf scale.

1 lb.....\$0.40

KOLO DUST

A very efficient powder spray to kill the red spider on evergreens, phlox, etc. Dust it on dry.

1 lb.\$0.30 2 lbs.....\$0.50

ARSENATE OF LEAD (Powdered)

Kills all insects which eat the leaves, by poisoning them. May be dusted on dry or applied in liquid form. Directions are printed on the can.

One pound can.....\$0.40

MARSH HAY (For Winter Protection)

Perennial flowers, roses and strawberries should be covered with marsh hay in late fall to protect them from alternate freezing and thawing, which causes winter injury. Marsh hay is practically free from foul weed seeds, which most upland hay contains. It is also easy to clear off the beds in the spring. One bale will cover about 200 square feet of garden. For sale during October and November. The use of leaves is not recommended as they usually mat down over the plants, preventing any circulation of air.

Price, per bale **\$1.25** delivered in Twin Cities or **\$1.00** when called for at Nursery.
